CITY OF KINGSTON, N. Y., TUESDAY EVENING, MARCH 27, 1928.

PRICE FOUR CENTS.

## Murphy Released, Others Suspected

### Former "Dry" Sleuth, Who Acted As Informer In Hauck Brewery Raid, Provides \$5,000 Bail Bond—Many Others Believed Interested In Plant, Erected To Carry On Gigantic Traffic In Corn-Sugar Alcohol.

Daniel J. Murphy of 25 Spring street, who was arrested by Federal agents late Monday afternoon on a charge of conspiracy to defraud the United States government through the manufacture, transportation and sale of liquor in violation of the Volstead Act, was released from custody shortly before 6 o'clock when he provided the necessary \$5,000 bail bond for appearance before U. S. Commissioner Arthur C. Connelly on May 2 at 2 o'clock. Murphy waived immediate examination and was held for examination at the time given. The bail bond was furnished by Eugene B. Carey.

It is alleged that Murphy is one of several men interested in the ownership and operation of the still which Federal men from the local office seized last week in the town of Ulster on the farm near the DeWitt Mills-Hurley road.

Daniel J. Murphy during the winter months was reported to have been appointed a special enforcement officer and at the time of the raid on the Hauck brewery on Wurts and Abel streets, this city, was with the agents who made the raid. At that time he stated that he was working with the government in the enforcement of the prohibition law. During proceedings following the raid on the brewery Mr. Murphy participated, in having previously acted as informant to the agents.

The alleged connection of Mr. Murphy with the still located last week came as a surprise to local people. It is claimed that there are many others interested in the operation of the plant which had been erected to carry on a gigantic traffic in corn-sugar alcohol. There is no charge that Mr. Murphy is connected with any other still or illicit liquor business.

The arrest of Mr. Murphy grows out of the seizure of a 10,000 gallon still, one of the biggest and most modern ever located in this section of the country, which was raided last week by Federal agents working out of the local enforcement office on Fair street, this city. The still was not in operation at the time the agents visited it but there was every evidence of its recent use. The plant was located on the Mary Anna Gastkowski farm some distance off the DeWitt's Mill-Hurley, cross-road in the town of Ulster about mid-way on the road between DeWitt's Mill and the Lucas turnpike "four corners."

A complete alcohol manufacturing plant was housed in a specially constructed building some 40 by 60 feet in size and two stories and basement in height. The still was located in the basement of the building. Two mash vats with a total capacity of 30,000 gallons were located on the main floor. The still, vats and a modern distilling column, a big mixing kettle and a 75 horsepower steam boiler used for power, were all destroyed by the agents. The big copper column, which is the heart of the plant, is said to have been of the latest type in every way fully equal to the best in use in a first class legitimate distillery, and capable of turning out a large amount of alcohol.

Residents nearby say the agents visited the premises last week. Located at a few hundred feet off the highway, the entire plant was hidden from the road behind a high hill and was situated in a wooded ravine between two steep hills. Everything for a gigantic traffic was included in the equipment.

Evidence showed the plant had been operated recently for the manufacture of corn sugar alcohol of unusual purity and high power. A quantity of crude corn sugar and molasses was found on the premises and destroyed.

The plant was located at the upper end of a small pond on the Gastkowski farm and the still and the big mixing kettle, probably on account of their size and weight, were hauled in and located on the scene and the building erected around them. Every modern device had been installed to turn out the illicit alcohol.

The extensiveness of the plant is shown by the modern method used to distill alcohol from the sugar and molasses. Provision was made to mix the corn sugar and molasses in a huge mixing kettle in the basement. Water from the pond could be pumped into the vat and this liquid pumped into the two 15,000 gallon tanks on the main floor of the building, where after being allowed to ferment for several days, it ran down to the basement where the big 10,000 gallon still was located. Steam from the boiler was used to provide power and to complete the distillation process. The brew in passing up through the column was cooled in a water jacket supplied by water pumped from the pond. At one side of the main building was located a lean-to in which the boiler room was

## Arrest Griffith In Still Seizure

### Sawkill Man's 585 Gallons of Alcohol Is Alleged Product of Still That Was On the Gastowski Farm.

The seizure of the still last week on the Gastowski farm in the town of Ulster, which resulted Monday in the arrest of Daniel J. Murphy of this city, evidently dates back to March 9 when a quantity of alleged alcohol was seized at the place of Frank Griffith at Sawkill in the town of Ulster. Griffith has also been placed under arrest by the Federal agents on a charge of being connected with the still on the Gastowski farm. It is alleged that the 585 gallons of alcohol seized on March 9 at the Griffith place was a product of the still on the Gastowski farm.

Griffith was arrested on a charge of having possession of 585 gallons of alcohol on his premises. At that time an adjournment was taken and bail in the sum of \$1,000 was provided on arraignment before U. S. Commissioner Arthur C. Connelly. This alcohol probably was traced to the source, for on Friday of last week Griffith was again arrested on a charge of conspiracy to defraud the government in connection with the raid on the still on the Gastowski farm and on being arraigned before U. S. Commissioner Connelly he was held in \$1,000 bail.

## Injured When Hit by a Barrel

### Fellow Workmen Found Carl Flatter Lying on Floor of Proctor Barrel Factory on Bruyn Avenue in Unconscious Condition—Is at Hospital.

Carl Flatter, employed at the Proctor Brothers' barrel factory on Bruyn avenue, was found lying unconscious on the floor of the factory by fellow workmen at noon on Monday. Dr. John E. Larkin was called and had the injured man removed to the Benedictine Hospital in the ambulance, where his condition today was reported as being fairly good.

It is thought that Flatter was struck and knocked down by a barrel while at work at the factory, but just how the accident happened is not known as no one witnessed it. When the ambulance arrived at the factory in response to a telephone call from Dr. Larkin, the man was still in an unconscious condition.

## FIRE THREATENED LATROBE BUSINESS DISTRICT

Latrobe, Pa., March 27 (AP).—Fire which threatened the business district was brought under control after a four-hour fight today. The loss was estimated at \$250,000.

Fanned by a high wind, the flames, starting in a dairy company building, leaped across the street and destroyed a department store, a garage housing fifty automobiles, a furniture store and adjoining buildings.

Sparks started other fires in various sections of the city, but firemen extinguished these with small loss.

The boiler was fired by oil from a storage tank. This boiler room was also used as a mess room for the men on the job and was equipped with a cook stove and tables. By firing the boiler with oil no smoke was given off to give a clue to the location.

The plant was located very close to the water line of the pond and recent high water had invaded the basement where the still was located. The high water was probably responsible for the plant being idle when the agents made the raid one day last week.

After the necessary evidence had been secured the agents wrecked the plant beyond use. The wooden storage tanks were smashed, the still, mixing kettle and boiler were demolished by means of oxy-acetylene torches and the copper column was wrecked and portions of the machinery were seized as evidence. Some of the still has evidently been carted away by the raiders.

It is estimated that machinery and equipment destroyed in the raid was valued at over \$25,000, exclusive of the building and any finished product which might have been on hand when the agents called. Whether any alcohol was seized by the agents is not known.

A big still was seized last fall in the town of Warborough by State Troopers and Federal agents but the one taken last week in the town of Ulster by the agents was of much larger capacity and more modern.

## Actions Settled In Supreme Court

### Action Against Paramount Bus Corporation Dismissed—Negligence Action Brought By Harry Solomon Against David J. Askin, Jr., Settled.

When supreme court convened Monday afternoon after the week end recess, case No. 31442, an action brought by William R. Garrison against the Paramount Bus Corporation, for a permanent injunction, was stricken from the day calendar when it was announced that an order had been signed over the week end granting defendant judgment on pleadings. The suit was brought to make permanent a temporary injunction which would restrain the defendant corporation from operating a motorbus from Hunter and intervening points in the mountains to New York city. The motion to dismiss on the pleadings was granted on the theory that the bus line was operating interstate and consequently was not under the jurisdiction of the Public Service Commission and therefore did not have to secure permission from that body to operate.

The action was brought under the assumption that the line came under the jurisdiction of the Public Service Commission and had not obtained that body's permission to operate nor had it obtained the permission of the various towns through which it operates. Mr. Garrison also operates a bus route through Greene county.

No. 85, an negligence action brought by Harry Solomon against David J. Askin, Jr., was also announced as settled. Judge William D. Cunningham appeared for plaintiff and Everett W. Boyard appeared for defendant.

### Negligence Action.

Another negligence action was taken up for trial. It is a suit brought by Fred C. Osterhout, an infant, etc., against Charles Rothberg, both of the town of Rochester, this county. Fred C. Osterhout, son of Benjamin W. Osterhout, on September 4, 1924, the date of the accident, was 13 years old. He was riding a bicycle on his way to school when he alleged he was struck and injured by defendant's Dodge car. He alleged that he was riding along a highway when his vision was obstructed by a brush along the road. The car of defendant, driven at a fast clip, came down a hill and around a turn and struck him, throwing him to the ground and injuring him. He sustained a broken arm, abdominal injuries, cuts on his chin and bruises and lacerations. He was picked up by Mr. Rothberg and placed in his car and taken to the Osterhout home and later to Dr. G. A. Harker's office at Kerhonkson where his injuries were attended to and he was then taken to the Veterans' Memorial Hospital in Ellenville.

Judge William D. Cunningham appears for the plaintiff and William D. Brininger and Roscoe Elsworth appear for the defendant.

## Lindy Silent On Future Plans

### Flying Colonel Withdraws From Public Focus—Doesn't Know What He's Going to Do Just Yet.

Washington, March 27 (AP).—Accclaimed as no other individual in the history of the nation, Colonel Charles A. Lindbergh officially withdrew from public focus today to follow his long cherished pursuit of a normal American citizen.

Wary of the jostling and admiring masses, decoration ceremonies and the constant formal affairs in his honor, the youth who has done more for aviation than any other man since the Wrights and Langley, calmly contemplated the future and how best he might acquire himself in the interest of his lone hobby.

Lindy doesn't know what he's going to do just yet. His airplane was tuned up today at Bolling Field to take him whenever and wherever his heart desires, but it is safe to say he wants no reporters around when he takes off.

The flying colonel wound up his six-day propaganda school in aviation at the local army station yesterday by taking aloft more than 200 members of the Washington diplomatic corps and their friends, the majority of whom represented the Pan-American countries which Lindbergh recently toured as a good-will ambassador.

Taken up in 22 groups, they brought the flier's total passengers in six days to approximately 1,100 in all. 110 flights were made, averaging 15 minutes each at a speed of 90 miles an hour and covering about 2,100 miles over Washington and nearby Virginia.

Wearing a light gray suit and no hat, Lindbergh went about his flying seriously yesterday. All efforts to talk with him while in flight were met with:

"I can't talk now, I'm busy with this motor."

## FIRST SPEEDER OF YEAR AGRESTED AND FINED

Kenneth Shultz of Little Falls, N. J., was the first speeder of the season to be arrested in Kingston. He was arrested this morning and when arraigned before Judge Shultz in police court was fined \$10.

Edward Kelder was arrested for public intoxication Monday evening by the police. This morning he was given a suspended sentence of thirty days in jail. Thomas McGrath arrested for public intoxication was fined \$5.

## GREAT DESTRUCTION FROM WIND IN MIDDLEPORT

Middleport, N. Y., March 27 (AP).—More than a score of roofs, barns, coors and many trees gave way before one of the worst winds of the year, which swept this district last night after two days of balmy weather.

The temperature here dropped 42 degrees during the night.

## German Aviators Wait on Weather

### Before Taking Off on Hazardous Venture Across the Atlantic—Thirty Hours Fixed for the Time of the Flight to Michel Field.

Baldonnell Airbase, Dublin, March 27 (AP).—With their Junkers plane Bremen ready for the most hazardous venture of the air, the flight across the Atlantic ocean from east to west, three silent Germans waited today on wind and weather. They were Captain Hermann Koehl, Baron Von Huenefeld and Arthur Spindler, who flew yesterday from the Tempelhof Field, near Berlin, over a course of nearly 1,000 miles in nine and one-half hours.

The Irish Free State gave them welcome, and as it became known that another attempt was to be made to span the Atlantic Irish pulses were stirred. It was the very daring of the thing, in the face of those who had gone before and had never been heard from, that appealed.

The Bremen stood in a hangar, and the aviators moved restlessly about. An appeal to the Free State authorities gave newspapermen entry into the big enclosure from which they had at first been excluded, and everyone was on edge in the hope that the weather gods would be favorable, for the Germans were determined to go if fate was with them.

It may be late today, or it may be tomorrow morning or even the day after when the Bremen takes off, and all precautions, so far as has been possible with this type of plane, have been taken to insure safety. The Bremen is a powerful machine, though with but a single motor, but the little craft has faced dangerous winds and threatening conditions before.

As the hours passed it, seemed unlikely that conditions would be favorable for a start today; then five o'clock tomorrow morning was tentatively fixed, and thirty hours the time for the flight from Baldonnell to Michel Field, N. Y. The course will be way of Newfoundland, but the final decision depends on the weather and the reports from the weather experts.

The plane behaved so perfectly in the flight from Tempelhof Air-drome, Berlin, and arrived in such good shape that it was believed to need comparatively little attention. Nevertheless mechanics were busy that nothing would be left to chance when the long hop begins.

## SENATE COAL COMMITTEE HEARS OF STRUGGLE

### Washington, March 27 (AP).—The competitive struggle between the southern and central bituminous mining fields for the northeastern and northwestern markets was outlined to the Senate coal investigation committee today by Percy Tetlow, president of the West Virginia section of the United Mine Workers.

Tetlow, a union leader, contended that the West Virginia operators had conspired to break the collective bargaining principle even though they were having the advantage in the winning of markets through a favorable freight rate differential and ability to produce good quality coal cheaper by reason of a lower wage scale than prevailed elsewhere.

"I could never understand the reason behind their fight on collective bargaining in view of these facts," he added.

Tetlow said that 55 per cent of the coal mined in the southern West Virginia fields went to markets outside the south. He then launched into a denunciation of the system of police commissioned by the state but paid by the operators.

The union leaders also criticized the system of company stores, charging that miners in West Virginia were prohibited from purchasing elsewhere. Senator Goff, Republican, West Virginia, attending the inquiry for the first time, inquired whether Tetlow knew of an instance where a mine employee had been discharged for dealing away from the company store.

"Oh, yes," replied the witness. "There is no doubt of that."

Except to say that "we need legislation," Tetlow was unable to suggest specific remedies for the coal problem.

## TWO STUDENT EDITORS OF DARTMOUTH MAGAZINE RESIGN

Hanover, N. H., March 27 (AP).—Two student editors of the Tower, an undergraduate literary magazine at Dartmouth College, had resigned today in protest against the rejection by the publication's printers of several articles on the ground that they conflicted with state laws on immoral literature.

The men, both seniors, are Paul MacLean, of Helena, Mont., and William A. Hunt, of West Hartford, Conn.

In a letter to the Dartmouth, the undergraduate student daily, they said:

"Tired as we are with the struggle with hypocrisy, we are convinced that such an august authority as the law of the state of New Hampshire renders any further resistance on our part embarrassing rather than helpful to the college."

## Stock Market Takes Nose Dive

### As Prices Crash \$5 to Nearly \$20 a Share in One of the Wildest Sessions in Wall Street's History—Exchange Membership Drops \$15,000.

New York, March 27 (AP).—The stock market, which has been catching new altitude records almost daily for more than three weeks, went into a nose dive today as prices crashed \$5 to nearly \$20 a share in one of the wildest sessions in Wall Street's history. Supporting orders were quickly supplied and about half the losses were recovered in a brisk rally around mid-day.

Trading was conducted at an unprecedented pace, more than 2,000,000 shares changing hands in the first two hours, with the ticker at minutes behind the actual market at mid-day. There were strong indications that the day's total sales might cross the 5,000,000 share mark for the first time in history. The 4,900,000 share mark has been crossed only twice, the first time on March 22 and the second time in yesterday's record-breaking session of 4,176,200 shares.

The reaction in stock prices quickly had its influence on the price of New York stock exchange membership, sale of a seat being arranged today at \$350,000, a drop of \$15,000 below the record price established yesterday.

Curiously, today's dramatic reaction came within a few minutes of an opening outburst of bullish enthusiasm in several motor and merchandising issues which established new high records on initial sales. This group, which included Chrysler, Packard and Studebaker Motors, Sears Roebuck and Montgomery Ward declined with the rest of the market as the swollen streams of selling orders poured onto the floor from all sections of the United States and the leading capitals of Europe.

Du Pont plunged from \$394.75 to \$380.25 and snapped back to \$384.75. General Motors from \$198 to \$195 and back to \$189.75. Radio from \$155.50 to \$146.25 and back to \$152.50. American International from \$96 to \$87.25 and back to \$92. Sears Roebuck from \$110.50 to \$97.50 and back \$104.75, and Hudson from \$99.75 to \$90.25 and back to \$94.75.

## Broadway Real Estate Changes

### I. Ginzburg Buys the Votter Building at 93 Broadway—Joseph Epstein Purchases Three Story Brick Building at 46 and 48 Broadway.

Two important real estate transactions on lower Broadway have recently been closed. Isaiah Ginzburg, the druggist at 46 Broadway, has purchased the former Votter building at 93 Broadway. This is a two story brick building adjoining the Jewish Community Center. The lower floor is occupied by the undertaking firm of Jensen & Perry and the upper floor is used for living apartments.

Another important change was the purchase of the three story brick building at 46 and 48 Broadway by Joseph Epstein. The lower floor consists of two stores; one occupied by Mr. Ginzburg as a drug store and the other by Mr. Epstein as a news store. The two upper floors are used as living apartments.

Mr. Epstein since taking title has had the two upper floors remodeled into modern flats and apartments. He has installed electric lights, new plumbing and made a number of other important changes.

William Singer of the Singer Service Station on the Strand has taken title to the Weiner property on Meadow street which consists of a lot and barn.

## DECLARE MILLER HAS ADMITTED 75 ROBBERIES

Buffalo, N. Y., March 27 (AP).—Sheriff Charles F. Zimmerman of Erie county today announced that two of his deputies had obtained a confession from Paul V. Miller, who is held in Binghamton on burglary and larceny charges.

Miller confessed, the deputies said, that he was implicated in robberies of a dozen summer residences along the shore of Lake Erie in the vicinity of Waukegan.

Four other persons were named by Miller. Sheriff Zimmerman said, explaining that their system was to break into an unoccupied summer home, pile up the contents, drive up later with a motor truck, haul the loot away and sell it.

Miller confessed the sheriff said, to about 75 robberies in five counties, mostly in the central part of the state. He faces a felony charge in Binghamton, where he is to be tried first, the sheriff said.

## DR. CARTER REMODELING HIS DENTAL OFFICES

Dr. C. D. Carter is having his dental offices on the second floor of No. 6 Broadway enlarged and remodeled. While alterations are being made the office is closed but Dr. Carter expects to reopen them early next week. In addition to his present offices he has taken over the rooms formerly occupied as law offices by County Attorney Robert G. Groves. Dr. Carter is adding new dental equipment and when it is installed will have one of the most modern dental offices in Kingston.

## BABIES AMONG DOGS IS REPORTED IN NEWBURGH

An order for the quarantining of all dogs in Newburgh is being awaited by the board of health as the result of finding three dogs which are rabid in that city. The Newburgh health board is urging all persons who own dogs to keep them chained or penned up to prevent a spread of the disease.

## Many Homeless In California

### Two Deaths Are Attributed to Floods and Property Damage Is Estimated at \$500,000—Reno Threatened With Further Inundation.

San Francisco, March 27 (AP).—Flood waters roared through northern and central California and western Nevada with renewed violence today.

Hundreds of persons were homeless in California, where two deaths were attributed to floods, and property damage was estimated at upwards of \$500,000. The city of Reno, Nev., also was threatened with further inundation.

Continuous rains over the northern portion of the state, high winds, snow storms at Reno and in the Sierra Nevada near there, aggravated the situation.

Reno, already partly inundated by the rush of waters from the Truckee river, was in the path of another four-foot rise, and a flood warning was spread through the lowlands this morning. Authorities said the peak of the flood would not reach Reno for several hours and that the situation was serious.

The California flood center shifted momentarily from North Sacramento valley as reports received here showed scores of places inundated by the Feather, Bear, Sacramento and Yuba rivers.

The crest of these flood waters will not be reached, it is believed, for about 18 hours at points below Marysville.

At midnight the town of Biggs was under fourteen inches of water.

At Orville, 25 miles away, fifty families were rendered homeless.

Transportation by rail and water north of Sacramento was crippled. Hamilton City, an agricultural community 25 miles from Red Bluff, expected to receive the overflow from the Sacramento river today, with the crest expected later at Chico, Biggs, Marysville and Sacramento.

At Sacramento, however, the authorities were confident that elaborate preparations would prevent serious damage.

Eureka reported that rivers in that region were streaming bank full, numerous landslides occurring in the Eel River Canyon delaying trains.

## Bombing at Home of U. S. Senator Deneen and the Other Thrown in Attempt to Assassinate Judge John A. Swanson.

### Chicago, March 27 (AP).—The fifth and sixth "political bombs" since January 26 were exploded last night. One was aimed at the home of United States Senator Deneen. The other was thrown in an attempt to assassinate the funeral of the murdered Diamond Joe Esposito yesterday, had started back to Washington. His sister, Miss Florence Deneen, and a maid were alone in the house when the bomb shattered the front porch of the two-story frame structure. Windows within the block were broken.

Twenty minutes later one of two men in a closed car hurled a bomb directly at the automobile which Judge Swanson was driving into his garage. The bomb missed the car, exploding near the front of the Swanson home and doing some damage.

The Swanson home is a block from the residence of George E. Q. Johnson, United States district attorney, who said federal action would be taken in view of the government angle involved, the Deneen home being the official home of an officer of the United States.

State's Attorney General Oscar Carlstrom, who like the federal district attorney is closely aligned with the Deneen group within the Republican party, was expected to institute an investigation of his own. Under Illinois law Carlstrom has power to supersede the state's attorney, who is Robert E. Crowe, a leader in that Republican faction opposing the Deneen group.

Judge Swanson and State's Attorney Crowe are seeking nomination for the office Crowe now holds. The election is two weeks from today.

The bombings occurred in the night when both sides had begun their final drive for votes by concentrating the campaigns in Chicago.

Judge Swanson was returning from a political meeting in which he had scored State's Attorney Crowe for what he called deplorable crime conditions when the bomb was thrown at his car. His daughter and son-in-law and their two small children were in the house when the explosion occurred.

Judge Swanson blamed the bombings on "conditions as they exist in Chicago."

"Law enforcement has been completely broken down," he said. "Crooks and criminals are coddled and given free reign. One can only expect what happened last night."

His Republican opponent for nomination, State's Attorney Crowe, said he was satisfied that the bombings were done "by leaders in the Deneen forces and done mainly to discredit Mayor Thompson and myself."

## BRICKYARDS MERGER IN A FORMALIST STAGE

The reported \$20,000,000 merger of brickyards extending from Mechanicsville to Haverstraw through the Mohawk and Hudson river valleys, which will tend to stabilize prices and increase production and water shipping, announced in Albany newspapers, is merely in a formative stage according to local brickyard owners, and no definite information is ready to be given yet. The contemplated merger is to be effected, it is stated, by outright sale of approximately thirty-five of the brickyards to a New York syndicate of bankers who will put a large part of the brick-making industry in the Hudson valley under a single control. Plants said to be involved in the merger include those at Haverstraw, Roseton, Kingston, Kinderhook, Cohoes and Mechanicsville.

## COAL COMPANIES ELECT DIRECTORS

At the annual meeting of the Rodie Coal Company, Inc., Robert S. Rodie, Robert R. Rodie, F. R. Steed, E. R. MacDonnell and S. M. Watts were elected directors. Inspectors of election were H. W. Harrison, L. C. Elmendorf.

## An Automobile Fire.

At 1:25 o'clock this morning the fire department was called to Flatbush avenue, near the city line, where an automobile owned by Frank Roosa of White Plains had caught fire and the fire had spread to a telephone booth. The car, a Chrysler sedan, was badly damaged before the fire was brought under control by the use of chemicals.

## T. B. Hospital Is Necessary

The Editor of The Kingston Daily Freeman:

The month of March has been designated by the National Tuberculosis Association as a period for an intensive campaign of education concerning this dread-malady, in an effort to diminish its ravishment. Points leading to early diagnosis and early treatment are to be stressed. But we in Ulster county have a more tangible rallying-point. Our whole program hinges on whether or not we shall have in the near future an adequate hospital with facilities for early diagnosis and treatment, a headquarters in short, for our battle against tuberculosis.

In 1905 the campaign against tuberculosis started on a nation-wide basis. In 1909 Ulster county was one of the first communities to start a tuberculosis camp. Soon thereafter the County Board of Supervisors assumed their responsibilities in the matter of combatting tuberculosis and the camp was changed into a hospital, if a dimly building surrounded by shacks can be dignified by the name of hospital. So great was the need that almost from the very beginning the facilities proved inadequate. There were insufficient beds and equipment for early diagnosis was lacking. At the present time the hospitalization of the tubercular sick is a matter of great concern to all community-minded individuals.

When it is considered that about ten per cent. of all the deaths in the county are due to tuberculosis and that the majority of the deaths between the ages of twenty and forty, the most vigorous and productive years of life, are due to tuberculosis, the importance of the control of this disease becomes apparent.

The Ulster County Tuberculosis nurse carries over one hundred and twenty active cases in Kingston on her lists and over two hundred and forty in the county. These do not comprise by any means all the cases. A conservative estimate has it that for every death in a community there are five active cases. A more liberal (and probably more correct) estimate is that there are ten active cases for every death. In one year one hundred and nineteen individuals, died of tuberculosis in Ulster county. This means there are from six hundred to over a thousand cases in the county. The impression of the medical profession is that the latter figure is nearer correct.

It is well established that every community should have one bed for the hospitalization of a tubercular patient for every death. According to this Ulster county should have one hundred and nineteen beds. We have at present twenty-two. In the ratio of the theoretically required beds and actual beds, Ulster county has the unfavorable position of being at the bottom of the list in the counties of the state.

It is this fact, together with our present inadequate facilities that is causing the State of New York to bring pressure on the County of Ulster to do what the county itself should have long ago done.

The present Ulster County Tuberculosis Hospital costs the county about \$18,000 a year. It does not fulfill its function of early diagnosis and early treatment. With a new hospital and with a slightly increased expenditure these important functions can be taken care of. As most of the present hospital was of temporary construction the depreciation of the property has made it so dilapidated that the important work of hospitalization of the tubercular sick can not be carried on very much longer there. The cost of up-keep and repairs is too great to be economical, and the outlook is that this cost will be increasingly great if a new hospital is not built.

There has always been public interest and support of the hospital and citizens of the county have been very kind in providing for the welfare of the patients. But, due to inadequate facilities, the hospital has lost to some extent, that confidence of the public which would enable it to fulfill its function in combatting tuberculosis. We have the sad spectacle of citizens of the

county banished to distant parts seeking to regain their health, when with a proper hospital, they could best as well "cure" at home, within reach of their friends.

Popular opinion seems to be well disposed toward a new hospital. It only needs crystallization in action. The segregation of the tubercular sick is vital to the control of the disease. At present we have many tubercular patients at large in the community, spreading the disease. It has been estimated that every active case that is segregated will prevent three new active cases. Frequently we find whole families wiped out because the original contact was either not removed at all, or not removed sufficiently soon to the hospital.

During this year there will probably be over one hundred deaths from tuberculosis in this county and in all probabilities many of these deaths could have been prevented.

Since the beginning of the National Campaign against tuberculosis the death rate has been halved in the United States. But we should not be satisfied with this and our vigilance against the white plague should not cease until it is wiped out, as it theoretically possible if our knowledge concerning the prevention is thoroughly applied.

A splendid site for a new tuberculosis hospital has been obtained and very good plans have been drawn up. It is hoped that there will be no further delay in carrying out this project so vital to the welfare of the citizens of Ulster county.

RAYMOND S. CRISPELL, M. D., Chairman of the Committee of Public Health and Social Welfare of the County Medical Society.

### SHOOT BULLETS THROUGH CLOTHING OF OFFICER.

LYONS, N. Y., March 27 (AP).—Three burglars sent four bullets through the clothing of Sylvester C. Matty, special policeman, early today when he surprised them as they were carrying clothing from the Jenkins Store, Inc.

Matty came upon the men as they were leaving the building. They opened fire on him and ran. He fired six shots as he pursued them. They made their escape in an automobile. Ten of the 14 men's suits they were carrying away were dropped in the flight.

### GENTLE SPRING HATH COME AGAIN TO THE CATSKILLS

PHOENICIA, March 27 (Special).—Spring has opened. The robins are here, the needles of the pine are lifting, the silver maple twigs are creamy white, the rose bush stalks are turning a soft green. There was no use for the coal man Saturday.

### ALLIGERVILLE.

ALLIGERVILLE, March 27.—Fred Light, a student of the New Brunswick Seminary, gave a very excellent sermon Sunday afternoon.

The Ladies' Aid will meet at the home of Mrs. J. Young, Wednesday afternoon, April 4. This will be the annual meeting at which the yearly reports will be read and officers elected for the ensuing year. It is earnestly requested that every member be present if possible.

All are glad to know that Mrs. Hiram Silkworth, who has been very ill with pneumonia, is improving.

Mr. and Mrs. George Van Dermark of Dr. Ford's Sanitarium spent several days last week with Mr. and Mrs. Philip DeGroot.

There was a large attendance and a good time at the K. of P. dance Saturday night. Among the out of town people, there were thirty from Newburgh. They came in a Newburgh bus.

### Our Growing Population.

The following births have been reported to the board of health:

Mr. and Mrs. Raymond Tator, 447 Abel street, a son, Raymond, at Benedictine Hospital.

Mr. and Mrs. Richard L. Marchant, 92 Washington avenue, a son, Richard Darton, at City of Kingston Hospital.

## Smith Signs 29, Vetoes 5 Bills

Five Measures Designed to Co-ordinate the Activities of Local School and Municipal Authorities Approved—Highway Bills Rejected.

ALBANY, N. Y., March 27 (AP).—Plunging further into the mass of legislation left by the legislature during its closing days, Governor Smith today signed 29 bills, including five measures designed to co-ordinate the activities of local schools and municipal authorities. The Governor also announced veto of five bills, among them the Lord Bill to provide that after January 1, 1929, all state and county highways constructed under the provisions of the present highway program shall be maintained at the sole expense of the state.

"The object of the bill," said the Governor in his veto memorandum, "is to relieve the towns of paying the \$50 per mile tax and the villages of paying the one and one-half cent per square yard tax which they now pay toward the maintenance of our state highways."

"To approve this bill would upset a policy which has been in existence ever since the state has had a department of highways. If this policy were bad, I would approve this bill, but I am informed by the department of public works that the policy is not only a good one for the state but the local communities, as the cost of maintaining the ordinary earth road is more than \$50 per mile per year."

Another highway measure vetoed by the Governor was the Bartholomew Bill, to provide that towns and counties should erect signs on all town highways and county roads where they intersect with town and county lines, and that the state should erect town and county line signs on all state and county highways.

The Governor signed the Wales bill providing for annulment of a marriage on ground of incurable insanity for five years or more.

The Mastick education bill approved by the Governor provide as follows:

That in cities where the school tax is collected separately and is not subject to change, the annual estimate and budget of the board of education should be sent directly to the officer or body charged with the duty of levying taxes.

That the city budget shall indicate separately the amount to be levied for school purposes if the school budget is subject to change by any city authority.

That the annual estimate and budget for school purposes be published, and that a hearing be held on it in cities where the estimate is not required to be submitted for revision to any other officer or body.

That the financial report of the board of education be published in July of each year in the official city paper. If the annual report of the board of estimate or some other body does not contain this information.

The fifth education measure approved was the Dick bill relating to the additional apportionment of school moneys to districts having part time or continuation schools.

## Tunney Must Accept Challenge

NEW YORK, March 27 (AP).—Gene Tunney, world heavyweight champion, will be placed on the ineligible list in New York state unless he accepts by next Tuesday one or all of the three "top" challenges now on file here, the State Athletic Commission announced today. The "top" challenges, in order named, are from Jack Sharkey, Tom Heeney and Johnny Risko.

The commission pointed out that Tunney could not be suspended here because his New York license has expired.

The boxing fathers at the same time announced that Jack Dempsey, former titleholder, would not be permitted to meet Tunney in New York until the champion had disposed of the three "top" challengers. A third Dempsey-Tunney bout, the commission held, "would be purely a financial transaction with no chance of the title changing hands."

The champion also will be required to fight twice this year to keep within the good graces of the commission, which ruled that no exception to the rule requiring titleholders to defend their crowns every six months could be made in Tunney's case.

### VAN KEUREN ARRESTED BY WEST SHORE R. R. OFFICER

William W. Van Keuren of the town of Ulster is being held in \$200 bail to appear before Justice Alexander Speers at a future date on a charge of intruding on the West Shore railroad property. He was brought to the court house today by a railroad officer.

### Home For the Aged.

The regular monthly meeting of the Board of Managers of the Home for the Aged will be held at the Home on Green street on Thursday afternoon of this week at 3 o'clock. A full attendance is urged.

### Five Killed By Tornado.

Canton, Ga., March 27 (AP).—Five persons were killed and a score injured by a tornado that struck the eastern part of Cherokee county late last night.

### Union Hose Auxiliary Meeting.

The Ladies' Auxiliary of Union Hose will hold its regular meeting tonight at 8 o'clock. All members are requested to attend.

Lindbergh will probably never star in a slow movie.

Too often the jury gets hung and the culprit doesn't get hanged.

## WINNERS IN ULSTER GUN CLUB SHOOT

The public shoot sponsored by the Ulster Gun Club at the Kiersted farm on the Saugerties road, near the Pan-Am gas station, Saturday afternoon, March 24, was participated in by approximately 60 shooters.

The audience consisted of about 150 which showed considerable interest is commanded by the shoots. It is expected there will be another one for members of the Gun Club exclusively on Saturday, March 31, although definite arrangements have not been made.

W. McConnell took first place with 19 birds in last Saturday's first event, participated in by 59 others. W. H. Brown was second with 18 and R. H. Wheeler third with 17.

McConnell took first prize in the second event with 22 birds. C. C. Fromer and W. S. Smith were tied for honors with 23 each but as there was no shoot to decide the winner McConnell was given the award. W.

H. Brown took second place after shooting it out with C. F. Doty and C. Preston who were even with him. Each had 19 birds. C. Bishop took third with 17.

W. S. Smith took the third event first honors by registering 23. R. Martin scored 21 for second place and C. Preston took third honors with 19.

## HIGH WATER AGAIN ISOLATES BURLINGTON.

Burlington, Vt., March 27 (AP).—High water on the Winooski river, which has isolated this city in a way reminiscent of the disastrous floods of last November, was a source of considerable inconvenience today but had caused no serious damage here or elsewhere in the state.

The pontoon bridge built by army engineers last fall after the flood had carried away the steel structure between this city and Winooski, was temporarily withdrawn to safety because of the high water and ice

KINGSTON, N. Y., MARCH 27, 1928.

Prof. Roland G. Kent, of the University of Pennsylvania, pointedly observes that it is an error to speak of Latin as a dead language, inasmuch as it is very much alive under modern forms in the national speech of countries, French, Italian, Spanish and Portuguese, that cover one-third the land surface of the world. Moreover, fully half of the 20,000 English words most commonly used today, he says, can be traced back to Latin roots.

The Montgomery (Ala.) Advertiser objects that every visiting Northerner still expects every Southerner "who looks important to answer to some military title and to invite him to have a mint julep." And yet: "Of all the lawyers in Montgomery we think of but two who answer to a military title, although others could if the Legion did not discourage it. And as for mint juleps—of the 65,000 people in Montgomery today, there are but 94 who know how to make a mint julep." Where or how these 94 get the all-important constituent of the "makings" under present conditions appears to be fraternally as well as prudently left unstated.

## BUYING AND SELLING.

"Don't be a bear on the United States of America" is always good advice, whether for the stock market, real estate investment or industry. But that doesn't mean always trying to "bull" the market. The bulls get caught only a little less frequently than the bears. The general curve of prices and profits is upward, but slowly; it's really a zig-zag line, with many ups and downs. So the recent bull movement in Wall Street made many fortunes, but also lost many. Thousands of investors, as usual, were lured by soaring prices to jump in and stake their savings on continued soaring, only to be caught in a relapse. The speculating public usually rushes in and buys on a rising market, about the time the professionals have quit. Ditto on a falling market.

A shrewd investor who wins pretty consistently says he always does the opposite of what the crowd is doing. It's a good old maxim, seldom observed nowadays, that "the time to buy is when everybody else wants to sell, and sell when everybody else wants to buy." That way you buy cheap and sell dear.

## LOOKING THEM OVER.

The blurb on the jacket and other fancy printed publicity are no longer so important in making a best-seller of a book as lionizing the author himself. The bringing of Trader Horn, whose real name seems to be Al Smith, to New York City from South Africa, is an extreme example of this new publicity method. He is now being dined and lunched and feted generally in the East and may soon set forth upon a lecture tour—all to promote sales of his next book.

The enthusiasm for lectures by popular authors is another expression of this same movement. It is personal contact with the author that thrills the readers, rather than anything wise or entertaining he may have to say. It is the same thrill that crowds a book store when there is a "guest author" autographing his works. People buy these volumes and sometimes read them, but it is shaking hands with the author that is the big attraction.

This probably does not hurt the public any, but one wonders and worries a little about the authors themselves. Do they see through it all, and keep their heads, or do they mistake it for developing literary taste and discrimination?

## DEFINITE DECLINATION.

The Republicans of Wyoming have passed a resolution with two "Whereas" and three "Resolveds," the second of the last named reading: "That the Wyoming Republican State Central Committee requests Calvin Coolidge to waive his personal preference and consent to continue for an additional four years that leadership which has brought honor and prosperity to this country." In reply on March 26 Mr. Coolidge's secretary wrote to the chairman of the Wyoming Republican committee: "The President has received your letter, enclosing a copy of the resolution adopted."

ed by the Republican Committee of Wyoming. While he, of course, very greatly appreciates and thanks you for the expressions of confidence, the President directs me to say that he must decline to grant the request of the committee.

If there has still been any lingering hope that Mr. Coolidge would consent to be "drafted," or any lingering doubt as to whether his previous announcement was final, this should remove both and definitely settle the long debated matter. And yet it is said that even now it is by no means certain that the "drafters" will regard this latest utterance as taking their favorite out of the running. Presumably they can be stopped only by a repetition of Sherman's "I nominated I will not run, and if elected I will not serve."

## A SCHOOL EXPERIMENT.

In a Canadian city, Oshawa, a local manufacturer has equipped one of the school rooms with the special type of glass through which the ultra violet rays of the sun can penetrate.

It will be interesting to watch the effect of the use of the glass on the health of the children in that particular room.

Now these very beautiful rays make up less than one per cent of the total heat rays of the sun. They can be cut off by dust, smoke, and too much moisture. That there is less power from these rays in the winter months was demonstrated by experiments conducted at the Sick Children's Hospital, Toronto, co-operating with the Ontario Health Department.

They were able to measure, week by week, the beneficial effects of these rays throughout the whole year. They found that the beneficial effect of the sun's rays was less throughout the autumn and winter months, than during the rest of the year. About the first of March there occurs a sudden increase to a level that is eight times as great as that of the fall and winter period. This high level continues until the end of October, when there is a sudden drop to the lower level.

Although the sun's rays are not so powerful in the winter months nevertheless the use of this special glass will give the school children whatever value there is, even if it is less than at other seasons. In fact these rays are needed most, at this time of year. It is certainly humiliating to realize that our knowledge of the wonderful effects of these rays of the sun dates back but a few years. On the other hand it is gratifying to know that we can now get these rays artificially, by means of special lamps, and that therefore rain or shine, treatment for tuberculosis, and "rickets" can thus be given.

That our research men have been able to give to the world a glass through which these rays will penetrate is also cause for satisfaction. However, you and I, while grateful for these lamps, and for this special glass, should take the lesson home, that the sunshine, which is worth so much to sick folks, is worth just as much to us in maintaining a high standard of health.

A little daily of the outdoors, for sun and air, is just as essential as food, sleep and exercise.

## DAILY LESSONS IN ENGLISH.

By W. L. Gordon.

Words often misused: Don't say "send all of them to me." Say "send them all."

Often mispronounced: falsetto. Pronounce the a as in "fall," e as in "set," o as in "no."

Often misspelled: data (plural of "datum").

Synonyms: denounce, disapprove, expose, impede, obstruct.

Word study: "Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Today's word: Scrupulous: cautious in action for fear of doing wrong. "His firmness was tempered by the most scrupulous courtesy."

## LOOK AND LEARN.

By A. C. Gordon.

1. What was the Confederate flag called?

2. What U. S. president's administration was called "The Era of Good Feeling"?

3. What semi-precious gem is a magnet?

4. What term was given to protective coloration during the World War?

5. What country is noted for its production of matches?

March 27, 1908.—Loris G. Osterhout, of Highland and Miss Hattie B. Van Demark married in Poughkeepsie.

Police started to round up lewd women in city, making several arrests.

March 27, 1918.—The Hudson river was open from Albany to New York, with but little floating ice.

Large delegation from Kingston and other Hudson river cities attended legislative hearing in Albany to urge adoption of the Walton-Bush Canal Terminal Act.

Death of Mrs. George O. Rouse at Bellingham, Washington.

William J. Williams died at his home on First avenue, aged 63 years.

## THE NICEST MOTHER

By DOUGLAS MALLOCH

A LOT of mothers may be fine. I know that mine's as nice as mine. Though some folks say, "All children do," I know a way.

To prove it's true, A way to prove, of all the rest, That my own mother is the best.

For often Mother takes me out Where other mothers are about.

They call my name, They put my head, They say the same.

Things Mother said, But not a one I ever meet That ever makes it sound as sweet.

And when they kiss me once or twice It doesn't seem the least bit nice.

I want to run, That's really true, It's just no fun.

When some folks do, But when my mother kisses me It's just as nice as nice can be.

I've even had to eat their cake; It's not as nice as she can make.

Just lots of ways, And lots of things, The way she plays.

The way she sings, My mother's best. Besides, last night, My daddy told me I was right.

(By McClure Newspaper Syndicate.)

## How It Started

By JEAN NEWTON

## THE "BOGIE MAN"

THE great fear of children is the "bogie man," and many grown-ups have bogies of various forms. The word has an interesting derivation, having had its origin in Wales, that land of myths and elves of old.

"Bogie" is really a corruption of "bogle," which is derived from the Welsh "bowl," meaning a specter or goblin. The verb "boggle," which means to waver or hesitate, to manifest alarm, also enters into the story of our bogie man. For in Wales a horse that chies in fear of something is called a "boggle."

So although we do not "boggle" or show signs of being "possessed," though we fear no goblins or witches, we do have our bogies today, pet fears and superstitions that are different merely in their nature from those old-time counterparts whose name has survived in the modern word "bogie."

## Ed Howe Says:

A hen-pecked man submits to so much that I do not believe he would resent a beating.

I know the people have a savage streak. How well we all know it. What I am trying to teach is that they cannot afford it; that they would do better to become not entirely, but almost, civilized.

You are dissatisfied, but should not carry it too far. . . . What are you dissatisfied about? Usually with natural conditions that cannot be changed; so your grumbling does no good: it is a mere exhibition of folly.

I have a body and can't make it over; no one can make it over for me. If we should all give our best efforts to changing natural rules governing our bodies, and contribute liberally to our means, we couldn't do it. I learn from old books and from old men that the ancients had the same experiences I am having, and that they had the same bodies we have today. I know I may adopt health suggestions made by my grandmother, and repeated by simple and intelligent people ever since, with prompt and unmistakable benefit. These suggestions are known to everyone, cost nothing, and are effective without doubt; anyone may test them, and receive benefit—not in the distant future, but within the day of trial. Under such circumstances, why do we drag around with feeble bodies? Why are we poor when there is plenty in the world for us?

(By the Bell Syndicate, Inc.)

## GIRLIGAGS

"No girl should let a fellow kiss her just because he courts her," says Flippant Flo; "she should think up some other reason."

(Copyright.)

## WHY BALD?

LUCKY TEAR drops fall on the hair, and the hair grows again. It's the only way to get your hair back. It's the only way to get your hair back. It's the only way to get your hair back.

## NEW FAIR.

New Paltz, March 27.—Miss Marie Greenway was the leader at the Epworth League meeting at the Methodist Church Sunday evening, March 25.

Two more numbers have been added to the Lyceum course for the season. On Wednesday night, March 28, the Powers String Quartet will give an entertainment in the normal auditorium. Mr. Powers is at the head of the music department at the Mount Pleasant Normal School where Dr. Van den Berg was formerly director of the training department. His children are all musical prodigies and are studying in New York city. Dorothy Powers has been for the past three years a pupil of Leopold Auer, maker of violinists. Besides excellent playing she has youth and personal charm. Dudley Powers finished high school at fourteen, immediately won a fellowship in the Juilliard Musical Foundation, and has the good fortune of studying with Felix Salmond, noted English cellist, for the past two years. The other members of the group, Harold and Arthur, who play second violin and viola, are said to hold their own in a most commendable manner. A typical program includes: Nocturne, by Chopin; Wilhelm, and Hark, Hark, the Lark, by Schubert Spalding.

Florence Olive Bauer died early on the morning of March 9 at Albuquerque, New Mexico. She was born in Piqua on March 22, 1902. She attended public school at Piqua and was a member of the Grace M. E. Church. When she was 12 years old her family moved to New Paltz. She graduated from New Paltz High School in June, 1921, and from the New Paltz State Normal School in 1923. She was an active member of the New Paltz Dutch Reformed Church and took an active part in the Sunday school. Her religion meant much to her. She had a wonderful character, always willing to help whenever she could. She was exceedingly capable and courageous in the face of difficulties. She taught in public school in Lindenhurst, Long Island, until she was taken ill. After that she remained at home until December, 1926, when she went to Albuquerque, New Mexico, and entered a sanitarium. Her father and mother, Mr. and Mrs. George Bauer, were with her during the last months of her illness. Besides her parents she leaves a brother and two sisters to mourn her loss.

Miss Sarah R. Kimble died of heart trouble at the Glen Cove Hospital of Glen Cove, Long Island, on Monday, March 12, at the age of 24 years. The funeral services were held from her late residence in New Paltz on Thursday afternoon, March 15, at two o'clock. The Rev. Edwin D. Miner offered the prayer and the Rev. John Neander, of Saugerties, preached the sermon. Mr. Neander for years was pastor of the Reformed Church at Gardiner, where Miss Kimble with her uncle and aunt, Mr. and Mrs. William T. Edwards, resided until they came to New Paltz two years ago. Mr. Neander said it seemed almost impossible to think Sarah as having left this world. He could not but think of her as the little girl he found her when he first was called to Gardiner. The little girl who was never too busy and was always glad to help where help was needed. Playing the piano at Sunday school, also teaching a class and helping in other Sunday school and Christian Endeavor work. She joined the church while Mr. Neander was pastor at Gardiner. Memorial services were held for her March 20 at 4:30 p. m., at the Methodist Episcopal Church of Sea Cliff, Long Island, at which place she was kindergarten teacher. To know Sarah Kimble was to become her friend. All those whose privilege it was to be associated with her were better and happier for having done so. Among her many accomplishments was that of being a talented pianist. Miss Kimble was a member of the O. M. N. Society while in New Paltz High School. She graduated from high school in 1923 as president of her class. In the Normal she was a member of the Clifton Fraternity. She graduated from the Normal in 1926. She was one of the few girls in whom the faculty had enough confidence to give a regular appointment to teach before her graduation. Sarah Kimble was always giving flowers to the sick and others whom she thought would care to have them. At her funeral the room was flooded with a profusion of floral pieces from relatives and friends and school fraternities. Among those from a distance who attended the funeral were S. E. De Gelleke, principal of her school at Sea Cliff, Long Island; Mr. and Mrs. William Timball, of Elmira; Herman Purdy of Haverstraw, county clerk of Rockland county, and her cousin; Henry S. Whittemore and Mrs. Vira Drake, of Paterson; Miss Eva Swift, her cousin, of Ridgewood, New Jersey; Mr. and Mrs. Webster Gale, of Newburgh; Mrs. William Hackett, of Bayonne, New Jersey; Lulu D. Miller and mother and Mr. and Mrs. Joseph Alsdorf of Middletown, and a number of people from Walden, Walkkill and Gardiner.

Miss Sarah R. Kimble died of heart trouble at the Glen Cove Hospital of Glen Cove, Long Island, on Monday, March 12, at the age of 24 years. The funeral services were held from her late residence in New Paltz on Thursday afternoon, March 15, at two o'clock. The Rev. Edwin D. Miner offered the prayer and the Rev. John Neander, of Saugerties, preached the sermon. Mr. Neander for years was pastor of the Reformed Church at Gardiner, where Miss Kimble with her uncle and aunt, Mr. and Mrs. William T. Edwards, resided until they came to New Paltz two years ago. Mr. Neander said it seemed almost impossible to think Sarah as having left this world. He could not but think of her as the little girl he found her when he first was called to Gardiner. The little girl who was never too busy and was always glad to help where help was needed. Playing the piano at Sunday school, also teaching a class and helping in other Sunday school and Christian Endeavor work. She joined the church while Mr. Neander was pastor at Gardiner. Memorial services were held for her March 20 at 4:30 p. m., at the Methodist Episcopal Church of Sea Cliff, Long Island, at which place she was kindergarten teacher. To know Sarah Kimble was to become her friend. All those whose privilege it was to be associated with her were better and happier for having done so. Among her many accomplishments was that of being a talented pianist. Miss Kimble was a member of the O. M. N. Society while in New Paltz High School. She graduated from high school in 1923 as president of her class. In the Normal she was a member of the Clifton Fraternity. She graduated from the Normal in 1926. She was one of the few girls in whom the faculty had enough confidence to give a regular appointment to teach before her graduation. Sarah Kimble was always giving flowers to the sick and others whom she thought would care to have them. At her funeral the room was flooded with a profusion of floral pieces from relatives and friends and school fraternities. Among those from a distance who attended the funeral were S. E. De Gelleke, principal of her school at Sea Cliff, Long Island; Mr. and Mrs. William Timball, of Elmira; Herman Purdy of Haverstraw, county clerk of Rockland county, and her cousin; Henry S. Whittemore and Mrs. Vira Drake, of Paterson; Miss Eva Swift, her cousin, of Ridgewood, New Jersey; Mr. and Mrs. Webster Gale, of Newburgh; Mrs. William Hackett, of Bayonne, New Jersey; Lulu D. Miller and mother and Mr. and Mrs. Joseph Alsdorf of Middletown, and a number of people from Walden, Walkkill and Gardiner.

Miss Sarah R. Kimble died of heart trouble at the Glen Cove Hospital of Glen Cove, Long Island, on Monday, March 12, at the age of 24 years. The funeral services were held from her late residence in New Paltz on Thursday afternoon, March 15, at two o'clock. The Rev. Edwin D. Miner offered the prayer and the Rev. John Neander, of Saugerties, preached the sermon. Mr. Neander for years was pastor of the Reformed Church at Gardiner, where Miss Kimble with her uncle and aunt, Mr. and Mrs. William T. Edwards, resided until they came to New Paltz two years ago. Mr. Neander said it seemed almost impossible to think Sarah as having left this world. He could not but think of her as the little girl he found her when he first was called to Gardiner. The little girl who was never too busy and was always glad to help where help was needed. Playing the piano at Sunday school, also teaching a class and helping in other Sunday school and Christian Endeavor work. She joined the church while Mr. Neander was pastor at Gardiner. Memorial services were held for her March 20 at 4:30 p. m., at the Methodist Episcopal Church of Sea Cliff, Long Island, at which place she was kindergarten teacher. ## BANDITS ESCAPE

WITH SIX BAGS OF MAIL.

Terre Haute, Ind., March 27 (AP).—Two bandits with shotguns held up three employees of the main mailing room at the Union Station last night and escaped in an automobile with six bags of mail, two of which contained registered matter. One registered mail sack had just arrived from Chicago.

After slugging the three men in the mailing room, the robbers hurriedly bound their victims' hands together. These bounds were soon loosened, however.

## Flood Report in Northern N. Y.

Lesson of the New England Flood Will Not Be Lost—Report on Methods of Reducing the Danger.

Is northern New York likely to experience a storm similar to the one which devastated Vermont last fall? In such event, what would be the flood height of the Northern Adirondack Rivers? What damage would result? What measures may be taken to reduce the flood hazard of the North Country?

These questions of vital interest to nearly one-half the state of New York are answered in an interesting non-technical report, prepared at the request of a committee of mayors appointed at a meeting of the mayors of the northern New York cities and villages, held at Canton, New York, November 26, 1927, at the instance of the New York Development Association, Inc., as a result of the apprehension which followed the destructive flood in Vermont last fall and a somewhat lesser flood in northern New York about ten days later.

The committee of mayors engaged Edwin S. Cullings, Watertown, hydraulic engineer, and Allen Hazen, New York, consulting engineer, who are especially well qualified to interpret flood data of New York and New England. The report of these engineers has just been completed and is being distributed to the mayors and other interested persons.

According to this report, there is no reason why a storm similar to that in Vermont should not break over the Adirondacks. The New England storm sweeping northwesterly along the Atlantic coast, under ordinary conditions, would have passed out to sea without destructive effect, but the report points out, an area of high barometric pressure, which formed off the coast of Maine and New Brunswick, drove the storm inland across western New England. When it came in contact with the Green Mountains, it broke with destructive fury, resulting in a rainfall of from eight to ten inches and a flood which devastated the whole state of Vermont. Flood flows of a height never before experienced swept over the lives of nearly a hundred people, destroyed property to the extent of thirty-three million dollars, swept away 1,200 highway bridges, washed out miles of railroad embankment, buried hundreds of the most productive farms under drift and debris and paralyzed industry throughout the state.

A slight deviation in meteorological conditions would have driven this storm over the Adirondack region of New York instead of the Green Mountains of Vermont. That such a storm will sooner or later occur in New York is almost a certainty in the opinion of these engineers, who have calculated on a mathematical basis the probability and magnitude of such a flood. It may be months or years away, but it may occur at any time. The time of arrival of a great storm cannot be forecast.

Records of the flow of streams in Northern New York are available for only a short period, the longest record being that of the Black River covering only thirty years, but the engineers have studied the storms and floods of the entire eastern part of the United States. A great storm, such as visited Vermont, or the sudden thawing of the great accumulation of the snow in the Adirondack

woods at the end of a late spring, especially if accompanied by a heavy rain, would send these northern streams to a height far above the greatest floods during the thirty years of record.

The report gives the detail figures of the flood flow of the Black, Moose, Osgood, Otsego, Grass, Raquette, St. Regis and Salmon Rivers. Destruction of property under such flood conditions is vividly pictured, yet it is apparent that the engineers have endeavored to be conservative in their estimates of flood damage. They point out that due to the flatter grades of the Adirondack rivers the flood would rise more slowly and it is unlikely that there would be great loss of life, but a very serious hazard would follow the flooding of homes, leaving them covered with mud and silt and leading to epidemics, the destruction of water supplies, and the clogging of sewers. The property damage, they believe, would be confined largely to business property, principally the mills and factories located on the banks of the rivers, the loss of which would be a calamity from which the region would not recover for many years.

Means of reducing such floods below the danger point should be considered as insurance and should be undertaken wherever the expense is not prohibitive. The report points out that there are two fundamental methods of reducing the danger of floods. One is to increase the capacity of the stream itself by dredging or by building dikes and levees, as has been the practice on the Ohio, Mississippi and other rivers of the middle states. This method can be applied to the Adirondack rivers only to a very limited degree. The other method is to impound the flood water in reservoirs that will hold it back and reduce the flood height below the danger point. In this respect Northern New York is fortunate; on the headwaters of most of the Adirondack rivers are suitable basins where reservoirs of large capacity can be constructed with positive assurance of safety. Industries along the streams receive a direct benefit from river regulation and in many cases can bear the greater part of the cost of flood prevention, making it unnecessary to assess the whole cost against the communities receiving flood protection.

The report comprises a well illustrated book of more than fifty pages and is being printed and distributed free by the New York Development Association, Inc., Watertown, N. Y.

### HOME SERVICE CLASS TO STUDY EASTER EGGS

"Easter Eggs" will be the subject of the home service lesson given by Miss Nellie Davenport of the Central Hudson Gas and Electric Corporation at the auditorium at 5 Field Court, Tuesday evening, March 27, at 7:30, and Wednesday afternoon, March 28, at 2:30.

The seasonal and plentiful poultry product is at its height in popularity at Easter time. Often times the housewife is taxed as to ideas in the variety of ways to use eggs, that she may take advantage of the low cost of this food.

Many suggestions for a number of methods of utilizing eggs will be given at these demonstrations. Main course and dessert omelets, meat, vegetable and fruit souffles, Easter salads, ideas both for the grown-up Easter luncheon and the children's Easter party will be covered.

Recipe sheets are given out to all that attend these classes to which all women are cordially invited.

### RECORD ATTENDANCE AT WEST SHOKAN CHURCH

The program advertised for a special evening service at the West Shokan Church on Sunday was sufficiently attractive to draw a record attendance. The Kingston Hi Y Deputation Team proved equal to the occasion and certainly merited the large measure of commendation from all witnesses. Orchestral selections and vocal duets were beautifully rendered. The prayer, scripture and the several addresses were inspiring and presented. At the close of the service, the majority of the large congregation remained to greet the boys individually and to extend personal appreciation and encouragement.

Preliminary to the service the ladies of the church served a bountiful supper which was enjoyed by all partaking.

New York M. E. Conference.

The one hundred twenty-ninth annual session of the New York M. E. Conference starts today in St. Paul's Church, New York city. This session is attended by all the Methodist clergymen of this section besides a great many laymen. The conference holds over until next Monday afternoon when Bishop Wilson will make assignments of preachers for the conference year starting April 1. It is expected that a great many changes in pastors will take place this year.

## Holds Post of Honor

### "JERUSA ON THE WARPATH" IN CHURCH OF THE COMFORTER

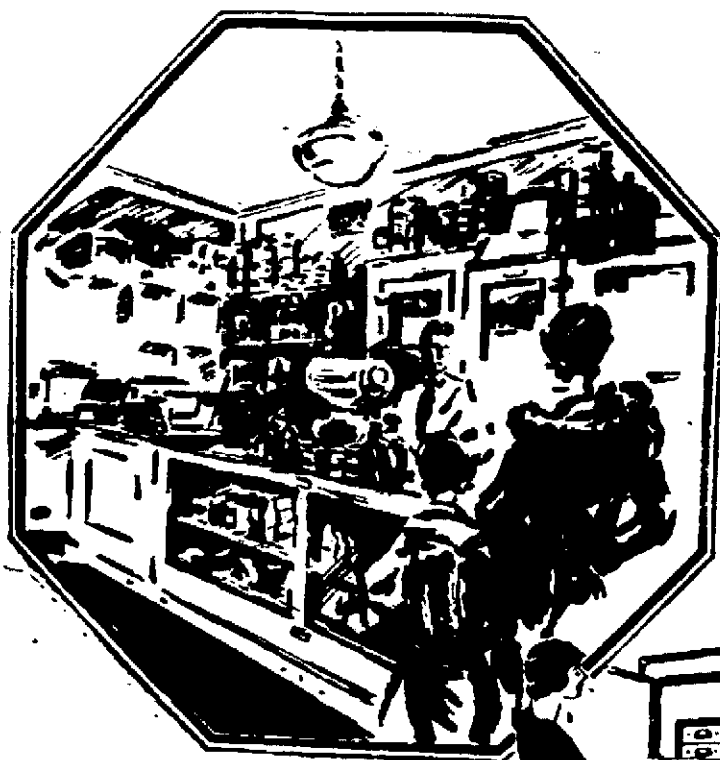

A rural farce comedy will be presented in the Church of the Comforter Hall Wednesday, March 28, by the Choir and Dramatic Club of the church. This play, which is written by Lieut. Beale Cormack, is entitled "Aunt Jerusha on the Warpath", and is one of the best of Lieut. Cormack's plays. It is a rip-roaring comedy from start to finish.

Some of the high spots of three acts are: The finding of the motion picture book, the torn shirt, the marriage proposal, the struggle for the letter, the mind reader, the duel, the suicide, escape of wild man and lion, Aunt Jerusha takes a hand, she makes a deal with the fortune teller, the robbery, the arrest, the reconciliation and all's well that ends well. A fine orchestra will furnish music and there will be several specialties introduced throughout the play.

The characters are: Sufficiency Fish, right off'n the farm Played by Milton Schiebel Elder Smuffels, an old hypocrite Played by Frank Barum Hiram Fish, the constable, by Heck Played by Paul Barnum Bill Barker, manager of the carnival Played by E. J. DuBois Aunt Jerusha, Hiram's better half Played by Mrs. Paul Barnum Sis Popkins, Aunt Jerusha's hired gal Played by Mrs. Milton Schiebel Stelly Etta Snapper, an old maid Played by Miss Maude Weaver Reeno De Beeno, the fortune teller Played by Miss Helen Balsch Elsie Barker, a carnival queen Played by Miss Helen Wolfenstein Chorus Girls—The Misses Thurler Hicks, Helen Rifenbary, Elberta Scheffel, Zaida Follette and Vera Barnum.

Ice cream and cake will be served after the play.

Believe Hunters Broke Windows. When the forest protectors opened the Fire Tower at Gallows Hill in the town of Kingston, a few days ago for the season, they found a number of broken windows in the observatory that had evidently been shot out by hunters. The State Conservation Commission will impose a fine of \$500 on the culprits if they can be detected.

## For Store or Home

The food store which prides itself on its clientele knows that attractive displays of tempting edibles make satisfied and regular customers. Everything must be fresh looking; the flavor of cold meats, cheese, butter and milk must be carefully retained so that there is no "store" taste. Fastidious women expect the same excellent refrigeration in stores where they purchase food as they have in their own homes.

With a Frigidaire installation the storekeeper displays in glass cabinets foods that tempt the purchaser because of their freshness and improved flavor. Even delicate greens, lettuce and celery remain fresh and crisp in the cold, dry atmosphere of Frigidaire—oranges and grapefruit retain that fresh-from-the-grove tang. There is a Frigidaire cabinet for every commercial purpose.

## M. E. POLL FAVORS LIMITED BISHOPRICS

Chicago, March 27 (AP).—Four thousand laymen and ministers who voted informally on a set of questions touching on vital parts of the Methodist Episcopal church structure, have returned a heavy majority favorable to changing the present method of electing bishops for life to that of limited tenure.

They agreed, also, by nearly 1,000 votes, that there should be a restatement of Methodist doctrine, but the question of whether there should be a more binding creed was voted down by a slim majority of 60.

The questionnaire was sent out by the Northwestern Christian Advocate. It was desired, said an announcement accompanying it, to obtain the sentiment of the church as a whole on vital issues which may come up at the general conference in Kansas City May 1.

The majority for limited tenure for bishops was 1,754. Ministers and laymen voted in virtually the same proportions. Eligibility to reelection received a 1,963 "yes" majority. The question of whether the area system, with continuing supervision by the same bishop should be continued, also received a heavy "yes" vote.

A "no" majority of 250 votes was returned on a question of whether prohibition should be the only criterion for a candidate's fitness for public office and ministers voted more heavily in the negative than laymen.

The vote was: Laymen—Yes, 721; No, 651; Ministers—Yes, 1,068; No, 1,388.

The "yes" vote for a restatement of Methodist doctrine was 978. Laymen voted: Yes, 814; No, 593. Ministers' sentiments were: Yes, 1,666; No, 909.

Thumbs were turned down on a hypothetical proposal to have the

church relax its laws on subsequent marriage of divorced persons. The majority against such a proposed move was 1,432.

## HORSES GO TO CHURCH ON PATRON SAINT'S DAY

Rome, March 27 (AP).—Horses and mules in Italy go to church once a year.

The occasion is Saint Anthony's Day and the animals are taken to church by their owners to be blessed. Saint Anthony of Padua is the patron of horses, their owners and drivers, just as Saint Christopher is the patron of automobilists and their cars. It is recorded that 700 years ago a horse at Rimini, which had eaten nothing for three days, refused oats on the fourth day until he had knelt and adored the Blessed Sacrament which Saint Anthony held before him.

When the day of their patron saint comes around, the animals are groomed until they shine, their foretops are braided with blossoms, their hoofs are varnished and paper stars are pasted on various parts of their bodies.

Greece Halts Salt-Making. Athens, March 27 (AP).—Accumulation of unsold salt in government warehouses due to cessation of exports because of increased prices and transportation costs has resulted in the government ordering suspension of operation of all salters. Surplus stocks are said to exceed 70,000 tons, which is about equal to domestic requirements.

Card of Thanks. I wish to thank the New York Telephone Company and employees for their floral tributes and sympathies during the death of my mother at Hawthorne, N. Y. (Signed) OSCAR CARLSON. —Advertisement.

LEIBHARDT. Leibhardt, March 26.—Sunday school will be reorganized on Sunday morning, April 1, at 10:30 o'clock in the M. E. Church. Officers for the coming year will be elected. We hope to see a good attendance as the new supplies have been received.

Miss Kathryn E. Brown spent last Thursday with her cousin, Miss Ethel Brown, at Kerhonkson.

School is progressing nicely with Mrs. Alice Baker as teacher.

Louis Hendrick and Chester Quick have both been enjoying a week's vacation at the home of Mr. and Mrs. Ole Hendricks.

Mr. and Mrs. Calvin Davis and little daughter, Gladys, were guests of Mrs. Julia Hornbeck and family on Sunday, March 18.

Mrs. Margaret Lawrence quietly celebrated her seventy-fourth birthday at her home on March 18. She received gifts and birthday greetings.

Mrs. Alex Brown has recently received cards and letters from her cousin, H. Carlton Locke, who has been spending a part of the winter at Miami, Florida, stopping at the Mark Twain Hotel at that place. Mr. Locke is planning to return about the 15th of May and will occupy his camp, Shady Rest Bungalow, near the Samsonville Mountains, for the summer. Many Leibhardt people will welcome him home.

At the communion services that were conducted by the Rev. Mr. Cooley, six young people were united in full membership with the M. E. Church Wednesday evening, March 21. They were as follows: Miss Agnes Brown, Miss Helen Hornbeck, Miss Kathryn E. Brown, Kenneth Smith, Alva Vandermark and Louis Hendrickson.

Miss Marian A. Brown of New York city is enjoying a ten days' Easter vacation at her home in this place. She later will take a trip with friends to Washington, D. C., before resuming her school duties in New York city.

There was a good attendance at the Ladies' Aid Society meeting that was held in the M. E. Church last

## Missouri Will Support Lowden

St. Joseph, Mo., March 27 (AP).—The 35 Missouri delegates to the Republican national convention will carry a resolution endorsing Frank O. Lowden for the presidential nomination.

While the Missouri delegation was not instructed for any candidate at the state Republican convention held yesterday a resolution endorsing the former Illinois governor was adopted by a vote of more than two to one. This action was regarded as morally binding the delegation to Lowden as long as he remains a candidate.

Lowden supporters demonstrated their power when delegates favoring the candidacy of Herbert Hoover introduced an amendment to strike Lowden's name from the resolution. The amendment was defeated by a roll call vote of 74 to 322.

**Belgian Dye Skins.**  
Brussels, March 27 (AP).—Rabbit skin dyeing has become an important industry in Belgium, exports exceeding \$1,000,000 annually. The dyed skins are used locally for furs, coats and gloves. France takes about half the exports.

**Teachers Like Mysteries.**

**MARLBOROUGH**  
Marlborough, March 27.—Miss Mary Casey of New York spent the week end at the home of her parents Mr. and Mrs. John Casey.

James F. Hannigan spent Sunday in New York.

Mrs. Anna Hannigan's guests on Sunday were Mr. and Mrs. William Ramberger and sons Harry, Kenneth, Donald and Billy, Jr., of New York city and Mrs. L. P. Gaffney and son James and daughter Eileen and Mr. and Mrs. D. G. Gaffney of New Paltz.

Mr. and Mrs. Michael Cowley of Highland spent Sunday at the home of Mrs. Thomas Newell.

Mrs. Cecilia Gilbride and son Edward of Poughkeepsie, spent the week end with friends here.

Sarah Newell who has been confined to her home with an attack of grip, is able to be out again.

Mr. and Mrs. Crawford Harcourt spent Wednesday with their daughter, Mrs. Westervelt Clark, in Milton.

The next meeting of the Marlborough W. C. T. U. will be held Friday, March 30. Mrs. Charles Lester will be the hostess. The meeting will be called at 2 o'clock. Mrs. Samuel Baxter will make a report of the recent regional conference held in Middletown. The clam chowder sale held Tuesday afternoon by the congregation was a thorough success. Everything was sold and more could have been sold if it had been on hand.

The Ladies' Aid Society of the Marlborough Presbyterian Church met Tuesday evening, March 27. The meeting was held in the church parlors. Business of importance was discussed.

Frank Panzella of New York spent the week end at the home of Mr. and Mrs. Stettin.

As part of the observance of Holy Week the Protestant churches of Marlborough plan to hold union meetings. They will begin Tuesday before Easter, April 3, with a gathering in the Presbyterian Church with the Rev. J. A. Piper speaking.

James Gale left Thursday with his daughter, Mrs. Meyerholtz and Mr. Meyerholtz for their home in Crestwood. He will make his home there for the present.

Mrs. Herbert Hartig and little daughter, Jean of Jamaica, L. I., spent several days the past week with her mother, Mrs. Agnes Carhart.

Mr. and Mrs. Hauck of New York spent the week end at the home of Mrs. Thomas Greco.

Mrs. Franklin Clark, Miss Cornelia Young, Miss Ethel Wolley and Miss Eva Carr spent a few days the past week in New York city.

Mrs. Thomas Greco and son Kenneth are visiting her mother, Mrs. Mary Marks in Brooklyn.

The play "Rose of the Southland" given by the seniors of the Marlborough High School in the Advance Theatre on Friday evening proved a good success. A large number were present and the seniors deserve great merit for their wonderful work. The seniors will have over \$100 cleared.

It is practically assured that the West Point Drum Corps will march with the Marlborough Hose Company at the big parade to be held in Kingston in June. The parade is to be the feature of the Hudson Valley Volunteer Firemen's Convention.

The annual board meeting of the town of Marlborough will be held in the town room in Marlborough Saturday afternoon at 2 o'clock.

McGowan Brothers finished last week of exporting fruit to Belgium, bought last fall.

Mrs. Agnes Carhart is visiting her daughter, Mrs. Hartig, in Jamaica, L. I.

The next meeting of the Pythian Sisters of Marlborough will be a game social. The meeting will be held Tuesday, April 3.

Guests of Mr. and Mrs. Hutchins on Tuesday were Harry Baxter and son and his wife and baby of Rosendale.

Mr. and Mrs. Stanley Harcourt of Newburgh spent Sunday at the home of Mr. and Mrs. Crawford Harcourt.

The P. T. A. met Tuesday evening, March 27.

The K. of P. will hold an old fashioned dance in Advance Hall on Wednesday evening, March 28.

The congregation of the Presbyterian Church will hold its annual meeting on the evening of April 3.

Daniel Mullinix of Savilton spent Thursday here.

At a meeting of the school committee of Marlborough citizens held in the school house Wednesday evening it was announced by H. S. Tutthill, president of the board of education, that the board considers a new building an absolute necessity in the near future. In accordance with the view the board will probably get an option soon on one of the pieces of property recently officially approved for school purposes by a representative of the department of education who came here at the request of the committee. A site must be secured if taxpayers vote to buy it before a new building is voted on.

Mrs. Joseph Smalley entertained the Melody Makers last Monday night. Luncheon was served.

There are several cases of mumps reported in school.

Mrs. E. D. Strobe has been ill the past week.

Mrs. Howard Kniffen spent the week end with Miss Nellie Dingham of New York city.

A two weeks' vacation is to be enjoyed this spring by teachers and pupils in Marlborough schools. The last classes will be held the afternoon of Friday, March 30, and studies will be resumed again the morning of Monday, April 16.

Miss Alice Strop and a friend from New York city are visiting Miss Strop's parents and sister.

Mrs. Cletie Schantz entertained a number of friends at a one o'clock luncheon Thursday.

Mr. and Mrs. Joseph Morrow and daughter, Lucille, spent several days the past week with relatives in New York city.

Henry Faust, of the First National

## HE ISN'T CONSTIPATED ANY MORE

Thanks to Kellogg's wonderful ALL-BRAN

Mr. Grimsdale wrote, of his own accord, to tell us how much he valued ALL-BRAN in relieving constipation.

"Just a few words to let the company know what Kellogg's ALL-BRAN has done for me. I was constipated for several years and I went to eating your PEP and ALL-BRAN. I am now rid of constipation and it is all due to the use of your products, and I will recommend it to anyone that is bothered with constipation."

Yours truly,  
M. M. GRIMSDALE,  
1130 Laguna Ave., Los Angeles

Constipation is a dreadful thing. It undermines health. It steals happiness. Throbbing heads, aching backs, spots before the eyes, bad complexion are just a few of its telltale symptoms.

Don't let it get in its deadly work on you. Protect yourself now. Kellogg's ALL-BRAN is guaranteed to prevent and relieve constipation. A health cereal—ALL-BRAN is 100% bran. Doctors recommend it. Delicious with milk or cream, or with fruit or honey added. Eat two tablespoons daily—chronic cases, with every meal. Use in cooking. At all grocers. Made by Kellogg in Battle Creek.

**Kellogg's ALL-BRAN**

Bank is on a vacation and has gone to Lexington, Ga., to visit relatives. Miss Kathryn Strobe is taking Mr. Faust's place while he is away.

The Presbyterian thimble tea will be held Thursday afternoon at the home of Mrs. Fred Barnes.

Last Friday evening Miss Lily Benjamin gave a party to the members of the basketball team of Marlborough High School. It leaked out it was Lily's birthday and the following day Miss Benjamin was the recipient of a beautiful manure set. Miss Ida Durland, teacher of the second grade, was also recipient of a gift of recognition of her birthday that day. The girls thoroughly appreciated Lily's hospitality and hope that there will be many more birthday parties.

**Egypt Buying Cement.**  
Cairo, March 27 (AP).—Lack of stones and lumber combined with plentiful supply of sand and gravel, has increased Egypt's need for cement, and imports show steady and rather rapid growth. Most of it is bought in Yugoslavia, Belgium, Germany, the United Kingdom and France. Underground cellars, heretofore impractical because of the damp climate, have been made satisfactory by cement and water-proofing materials.

**Pullman Business Poor.**  
Paris, March 27 (AP).—French travelers ride first class sleeping cars or sit up all night on trains, rail officials say. Efforts to put in second and third class berths have failed.

**Card of Thanks.**  
The family of Mrs. Maria Van De-mark of Bloomington, who died on March 20, 1928, wish to thank their neighbors and friends for their acts of kindness during the illness and after the death of their mother; also the floral tributes.  
(Signed) MRS. LEWIS TERHUNE

By offering a car so advanced in design, so modernly equipped and so completely appointed, Oldsmobile has opened the fine-car field to thousands once barred by price. Not only are there provided the basic elements of fine car performance, beauty and construction—but in addition are included numerous items ordinarily listed as extras. In addition to the added values they represent, these features lend new delight to the power, speed and smoothness of the new Oldsmobile 55 h. p. high compression engine.

They emphasize the impressiveness of Oldsmobile beauty, which expresses the whole new spirit of our times. Beyond all doubt; they stamp the new Oldsmobile as a unique achievement in fine-car building—a car you will want to drive—and want after you drive it.

## Ever Ready Club Presents Play

The Ever Ready Club of the Girl Reserves presented a one act play Saturday afternoon at the Y. W. C. A. for the enjoyment of their friends. The play, "The Girl Reserve Doll Maker," was written by Betty Jones and also costumed by the members of the club. The play opened on the scene of the nursery of Mildred, a girl reserve whose hobby in life was to collect every type of doll in the world. Betty Jones and her mother arrived to inspect her elaborate collection of dolls and during their visit Mildred has her dancing lessons. Pierrette, the French doll, giggled and Andy, and the girl American doll, perform for them. Betty wished that she might have a representative doll to her cousin in a foreign land, so Mildred gives her a girl reserve doll to send that she may know of girl reserves and their purpose to promote good will and fellowship in all parts of the world. Betty departs happily with the doll under her arm. Miss Madeline Leppert gave a very pretty ballet dance in the role of Pierrette, while Marguerite and Helen Terwilliger starred in the character dance of Raggedy Ann and Andy. Last but not least Virginia Scudder as the American doll did a clever puppet dance. The principals in the play were:

Mildred Noxon  
Betty Jones  
Elena Ricker  
Anna Whitbeck  
Those taking the parts of Mildred's dolls were: Caroline Carpenter, Louise Caswell, Mary Guzik, Evelyn and Mildred Laird, Anna McElanahan, Anna Relyea, Inez Riosa, Stephanie Savaskie, Helen Thompson, Gladys Tyler, and Irene Van Hoebenburg.

Third in this series of entertainments being given by the Grade School Girl Reserves at the Y. W. C. A. was an Advertising Party and Hunt for the Busy Bees Club. Sponsored by the Busy Bees Club.

more Brown, as the Busy Bee, introduced the various characters in the play. Gertrude Glass and Evelyn McElanahan represented the Crystal Salt Company. The Diamond Salt Company was represented by Charlotte Rockwell, as the Shaker Girl, who gave each guest a miniature box of salt. Edythe Quimby and Helen Winchell were veritable Life Savers as evidenced when they distributed their wares. Viola Van Steenburg, who represented the Corn Products Refining Company, who so generously donated the Karo Syrup for the supper. A milk maid, Eva Mae Smith, related the benefits derived from drinking Horlicks Malted Milk. Ruth Brower, a diminutive figure as to her identity and admitted that she was a Planter Peanut. A Funny Clown dressed in red and yellow told the advantages of using Ipana Tooth Paste. The Ipana Clown was Beanie Johnson. A little old lady who keeps her house spic and span was Nellie Bush, dressed in the well-known Old Dutch Cleaner costume. With the coming of spring, Marietta Simpson and Dorothy Lyons tempted us to go to the woods and build a fire over which to roast "Campfire Marshmallows." Mabel Obeaus, in a typical Whigley Costume distributed Gum to all the girls. A sunny-faced girl, Harriet Enlist, not only told her guests about the deliciousness of Sunshine Biscuits but let her friends judge for themselves. Helen Short as Aunt Jennima made the guests feel welcome by her cheery greeting at the door and bustling around to see that all her guests were plentifully supplied with pan-  
cakes.

## IND CHARIOT WHEELS OF 5,000 YEARS AGO

Chicago, March 27 (AP).—Chariot wheels which 5,000 years ago may have carried in triumph a king or a warrior have been uncovered in Mesopotamia by the Field Museum-Oxford University joint expedition to Mesopotamia, according to word sent back to the Field Museum of Natural History.

They were found on the site of the ancient city of Kish, with the central wooden portions of the disc-like wheels virtually intact. They have a diameter of some two feet and are bound with a rim two inches deep, studded with copper nails, which are still in place, at intervals upon the rolling surface.

There were two of them and they were found by Henry Field, assistant curator of physical anthropology of the museum staff, while working more than 45 feet below the surface, over the buried remains of the ancient Sumerian city said to have been the seat of the world's oldest civilization. The wheels are believed by archaeologists of the expedition to be the oldest ever excavated.

## PINE HILL.

Pine Hill, March 26.—At the village election held last Tuesday, Charles H. Griffin was elected trustee for two years, and D. E. Smith was elected treasurer. There was no opposition.

Louis Cohn, of Brooklyn, owner of the Rip Van Winkle Hotel at this place was in town last week overseeing improvements being made to his property.

Wilbur Giles has been sick during the past two weeks.

Mrs. Ada Hulbert is having a fireplace installed in "The Zephyr" building. The work is being done by articles from Ontario.

Several Masons from this place attended the Masonic Lodge at Marquetteville last Wednesday evening.

George Kelder, who has occupied rooms in Wallace Crosby's house on Main street for the past few months, has rented the Norton cottage on Elm street and will occupy it in April 1.

Mrs. Roland Persons of Kingston was a guest of Mr. and Mrs. Walton Persons last Friday.

George Murray, an old resident of Liveria, died suddenly last Thursday night at the home of Pardee Boring. When he retired he seemed to be in his usual health, but in the morning he was found dead. Heart failure is supposed to have caused his death. The deceased was about 80 years of age.

Charles Persons was a Kingston visitor last Friday.

The Rev. Mr. Hewitt, pastor of the M. E. Church at this place, is attending the annual conference in New York this week.

Mr. and Mrs. Walton Persons and Mr. Earl Persons motored to Kingston on Saturday.

George Smith and O. V. Smith are repainting and relettering the Pine Hill fire department truck. When completed it will look like a new one.

T. F. Clifford, who has been in poor health for the past year, suffered a slight shock last week and died at the home of his son, Paul Clifford, in this village early on Saturday morning. His remains were taken to Guilford on Monday for interment, where the funeral will be held on Tuesday. Deceased was 64 years of age. He is survived by his wife and son, who reside in this village.

The funny thing about the new synthetic rubber, perfected abroad after many years of experiment, is that it isn't being recalled as Aunt Dinah's cream waffles.

"VISIT OUR OYSTER BAR" CENTRAL FISH & VEGETABLE MARKET 230 BROADWAY, CAROL COOMBS, Mgr.

## LAST NIGHT on the RADIO

Strong reception Monday evening was ruined by stronger static, which began early and remained late. There was no weakening of the static until about 11 o'clock, when a number of stations could be heard above the din. Reception this morning was clear but rather weak.

The Derentbacher Candy Company of this city has received word from the manufacturers of Lowrey's chocolates that they will inaugurate a weekly radio program beginning Thursday evening from 7:30 to 8 o'clock from Stations WJZ, WBZ, WBZA, a portion of the Blue network of the National Broadcasting Company.

## "Pirate Gold" at Reader's.

Fred Hamm with his Victor Recording Orchestra, the dancing McNaughtons, Nita Bernard of the musical comedy "Funny Face," and Mme. Smirnova's Girl Pirates, made a decided hit with audiences at Reader's Kingston Theatre Monday where they are staging "Pirate Gold." The attraction will be at Reader's throughout the week with a change of program starting Thursday. A "Gentleman of Paris" is the cinema offering, starring Adolph Menjou.

## Shot Machine Maps.

Stockholm, March 27 (AP).—Illuminated guide maps, which upon the insertion of a coin in the slot reveal large scale street plans of the city, have been placed in several railway stations in Sweden. Some maps show the location of buildings, others indicate transportation routes. A one-minute glance at the map costs about three cents.

## Masquerade Dance.

Mystic Court, No. 62, Order of the Amaranth, will hold a masquerade dance at the Masonic Club Rooms, corner Broadway and Henry street, Friday evening, March 30. Music for dancing will be furnished by Zucca's orchestra. The public is invited to attend.

## Flashes of Life Sketched in Brief

(By The Associated Press.)

Philadelphia—Just a kite is the airplane today in comparison to what it will be in the opinion of Eddy Rickenbacker. He also foresees three day trips to Europe within three years, six super highways 400 feet wide from the Atlantic to the Pacific coast, and airplane fields on decks above railway yards.

Parkersburg, W. Va.—W. P. McCracken, assistant secretary of commerce, expects that the number of civilian aviators will double this year, making the total 8,000.

New York—Two students are flying to Chicago to carry out a class room assignment. W. H. Steinkamp and Walter Hartung of the Daniel Guggenheim School of Aeronautics, New York University, will go in mail planes to obtain data for theses.

Detroit—An attempt to commercialize the house in which Lindbergh was born is finding legal obstacles. A temporary injunction has been granted restraining the occupants from converting the property into a museum to which admission would be charged and in which souvenirs would be sold.

Ottawa—Miss Agnes MacPhail, member of the Dominion Parliament, thinks that the peace tower on the Parliament buildings almost brazenly glorifies war. She is opposed to such memorials and urged the house to establish a governmental department to promote peace and international understanding.

Paris—Marshal Foch has no objection to French communists erecting a statue to Lenin—provided the statue is built in Moscow.

Los Angeles—C. C. Julian believes that 1,000 barrels of whiskey have been consumed in his home in the last four years. He so testified

when prosecuting an inebriety charge against his wife.

New York—The will of Celeste De Longpre Heckscher, composer, directs that her funeral be held in the evening and that the mourners wear white.

## Eight Golden Weddings.

New York—Eight golden wedding anniversaries were celebrated here on the same day and most of the 1000 inhabitants of the town found themselves in the family parties, often by relationship to several pairs of celebrants. The 16 principals averaged 75 years of age.

## New Money for Turkey.

Constantinople, March 27 (AP).—Turkey is putting 5,000,000 pounds of bronze and nickel coins in circulation to replace the obsolete 50-plaster bank notes issued by the former Ottoman government. To promote prompt coinage, officials and workmen rendering exceptional service during the coinage period will be given a gratuity.

## ELEANOR GUNN ON FASHIONS

### A Sleeve That Is Not a Sleeve Focuses Atten- tion—It Is of Lace and Reminiscent of the Mitts of Long Ago

Paris—Perhaps you cannot remember when black lace mitts were in fashion, or would not admit it if you could. Be not dismayed, they are not to be resurrected, but at least two Paris designers have launched sleeves that are not sleeves at all in the strictest sense, since they are not attached to the arm-hole. Nor are they mitts, because they do not cover the hand, beginning at the wrist and ending some four inches below the shoulder.

They are not especially practical, perhaps, but they are effective. However, they are practical in the sense that they make it possible for a lace dress to be worn without sleeves for evening, and, with these "pseudo sleeves," for restaurant or theatre wear, when perhaps one feels more comfortable because of covered arms.

The long-sleeved lace dress has been heralded far and wide. Women have formed the habit of liking their day time dresses to cover the arms.

One of the New Silk Suits Presented by Paton Chooses Navy Taffeta as Medium for Jacket and Skirt, and a Sheer Pink Silk for the Blouse. Scalloped Piplings Are Decoratively Used.

and there is something of a question whether the few sleeveless and short-sleeved dresses introduced this spring will have any recognition. Chanel has pointed the way toward shorter sleeves, by making many of hers straight, instead of shaping them to the fore arm, and ending them at least two inches above their usual position at the wrist. What this sleeve lacks in grace, it makes up for in newness.

While on the almost inexhaustible subject of lace gowns—for they are vastly important, this spring—mention should be made of those which are dotted with chenille, or of lace, part of the pattern of which is accented by applique or embroidery.

(Copyright, 1928, by Metropolitan Newspaper Service, New York.)

### A Missionary Social.

The Home Missionary Society of the Clinton Avenue M. E. Church will hold a social in Epworth Hall Wednesday afternoon. The ladies of the Missionary Guild are invited to attend. Luncheon offerings will be taken at this time. There will be a short program and refreshments.

### It Lifts Your Spirit

By Edna Wallace Hopper.

The vigor of a March wind carries you along with a light heart. Spring is approaching and the world seems gay and hopeful.

It's great for your spirit but hard on your skin. Every gust of wind ruthlessly plants tiny particles of dust in your pores, taxes the naturally smooth texture. Your most precious skin is constantly exposed to these harsh effects.

But you can erase the inroads upon beauty with a little care and the right help, which I spent years to find.

I call this help my Facial Youth. It is a liquid cleanser which soothes the skin and actually removes the dust and grime which are so destructive. Soap and water merely cleanse the surface, and have a sootening effect.

Facial Youth does not grow hair. It has a clean, fresh odor. It's a pleasure to use this gently soothing cleanser. I know of nothing which does more to retain youthful firm smoothness of face.

Now I urge you, for beauty's sake, to buy a bottle at any toilet counter! The price is 75 cents. Your money back if you are not satisfied.

## Flowers, Feathers, Ribbon and Straw

### Elaborate Hat Styles Shown on Fashion Card for Spring Wear.

Paris news relating to spring millinery foretells a vogue for flowers, feathers and ribbon for trimmings. These, which go with an elaborate style, appear to have come as answers to the desire of designers to get away from the limiting influence of the plain felt toque. Their desire has been reinforced at last by the demand women of fashion are making for hats of straw and the lighter materials. These must be trimmed in some manner, observes a fashion writer in the New York Times, and hence the long-declined opportunity for freedom in ornamentation has arrived. An exclusive modeler who recently arrived from Paris with models from the authoritative designers answered the request for millinery news concisely: "Flowers, feathers, ribbon, straw."

The Easter bonnet appears later than once it did because the southern resorts have added another season to the year of fashions. In this season's designs no account is taken of size or shape of the hats, for some are small—smaller than ever—some are medium and some are extremely large.

The utmost chic is expressed in the small hat, which is drawn tightly over the head to a close fit across the top, covering the brow to the eyes and around to the ears completely. It suggests the headpiece of a court jester, some of the models having an elfish and others almost a Mephistophelian appearance. The original seems to have been inspired by the aviator's headpiece, being fitted so flat and so low over the ears in some cases that side flaps are emphasized in the trimming.

Toque of Shellacked Violets.

One of the most dressy of the new toques is made all of shellacked violets on a frame which is higher in the middle and fits very close and low over the ears. This model is done in black and white, one side of the toque being all black, the other solidly white, with the violets sewn close together.

On a close cap shape of black bako straw a pattern of oak leaves made of cre ribbon is applied unevenly, with a larger leaf placed to cover each ear. A turban, entirely brimless, is fitted closely to the head but made slightly higher and covered solidly with cre ribbon in small, stiff, overlapping loops.

An evening hat which presupposes bobbed hair because of its small size and snug shape is made of a lace straw called charvre, made in an open medallion pattern. This covers the hair completely and has deep flaps over the ears that rest on the cheeks. This model is likely to be seen in many variants during the spring season, for it is having a wide vogue in Paris. It is made of gracefully designed lace straw in many lovely colors to match the costume and even the hair. The straw being of the cre, lacquered kind, it is lined with mulline to give it a softer appearance and keep the hair protected.

These cap-shaped evening toques are having such an instant and widespread vogue abroad that they will certainly be copied in different kinds of straw, lace and tulle for dressy afternoon and informal evening wear.

Hat of Tan Baku; One With Flower Trimmings; One With Low Loop.

here during the spring and summer. Most of the models are trimmed or almost entirely covered with cre ribbon. A dressy turban in which the ear flaps are replaced by outstanding loops of cre ribbon has a dull silver ornament at one side.

New Kind of Straw. Another model, made of cefafin, a new straw, has a band of the straw added across the front to give the effect of a double crown. This is bound with cre ribbon and has a butterfly loop at one side. All of these hats are made of straw or fiber light as thistle-down and lacquered, or shellacked, as the process is now called.

This new shellac finish is used for feathers as well as for straw and for flowers, the feathers being made into trimmings in fine strands. On one hat the crown of brown felt has small curled whips of brown feathers covering its entire surface. This model is from de Monier. Another from the same house is made of black felt, on the crown of which black cre striped feathers are applied in flat curls.

In these felt materials of the lightest weight is used. Many new shapes are shown in which lower crowns are conspicuous. One model which has a certain dash, is of light tan felt. Its crown is of medium height and its

decorous brim, shaped on the lines of the ragabond hat, is wide at the sides and turned up in front. It is trimmed with a twist of tan and pink ribbon around the crown. Another stunning shape in mid-toned felt has a wide, slightly rolling brim, short in front. It is trimmed with ribbon of the same shade and is worn low on the head and tilted to one side.

The felt carry on, for they are indispensable for sports travel and general utility. But even in this type of hat there are new variants that make for grace, fine detail and a more feminine style.

Crowns are not only lower, but broader at the top, and in many models are stitched, folded or creased to relieve a too severe appearance. In these the close cap is shown, usually

Picture Hat With Crown of Milan Draid, Shaped Brim of Velvet.

with a bit of needlework, a pin or some detail to give a suggestion of trimming.

Brimms are wider and are cut to form a curving or overlapping line at one side or directly in front, avoiding stiff outlines. On these, feathers in separate ornaments or bands, ribbon and ribbon motifs are used in different ways. A pretty gray felt in the new mode has a soft, slightly drooping brim slashed at one side and with edges overlapping. A narrow band of pelican feathers in two shades of gray is laid close around the base of the crown.

An unusually pretty walking hat in cafe-au-lait felt has a square crown and narrow, drooping brim which rolls slightly from the front and along one side. This is entirely covered with small formal bows of satin ribbon of the same shade as the felt, laid on obliquely and close together.

Follow Ensemble Vogue.

The fancy for ensembles is shown in a number of the hat models, especially in the more-tailored ones. At the moment polka dots, which are expected to be worn a great deal, are shown in scarf and band trimmings on straw hats in small and of medium sizes. A smart little hat of brown bako straw has a slightly rolling brim and about the crown is draped a scarf of brown and beige polka dot-crepe de chine. With this is to be worn a Deauville kerchief of the same material. This ensemble is attractively copied in navy and white, navy and tan, and particularly in black and white. Crepe, silk and chiffon in other painted patterns, such as geometric or small florals in many colors, are used for the hat trimming and for the scarf or kerchief.

Separate scarfs are now made in narrow, straight stripes of crepe printed in a number of new designs, most of them in small conventional patterns in fresh spring colors. These scarfs, cut like a muffler, are worn close around the neck and tied in front in the manner of an Ascot. They are intended to accompany the simpler frocks in plain colors and the new tailored suits. Many novelties are appearing in larger scarfs of the dressy sort and those of printed chiffon and tinted lace will be much in demand for summer evening dress. Some quite stunning scarfs are woven in roman stripes and brilliant colors.

Many new styles of footwear are out. Black oxfords, colonials, plain pumps and strap sandals will be worn in patent leather, dull kid, suede and lizard. With these are shown the sheer black and gummat stockings. Among the Palm Beach styles are the novelties in straw, which are hand painted and decorated in needlework, and the shoes for daytime and evening, which are covered with the same material as that in the dress. Models that indicate the shoes that will be fashionable for spring and summer are in the lighter shades of leather, in kid, suede and reptile skin.

An "open shank" sandal of beige kid is being shown, which is bound and trimmed with very narrow bands of lizard a trifle darker in color. The same model is also shown in other combinations. All of these are quite in color. Pastel shades will probably predominate in shoes except in a few extreme styles for elaborate dress.

A striking novelty in evening shoes is the masquerade slipper. In form it suggests the Juliet, with the high front slashed to resemble the eye and mouth openings of a mask.

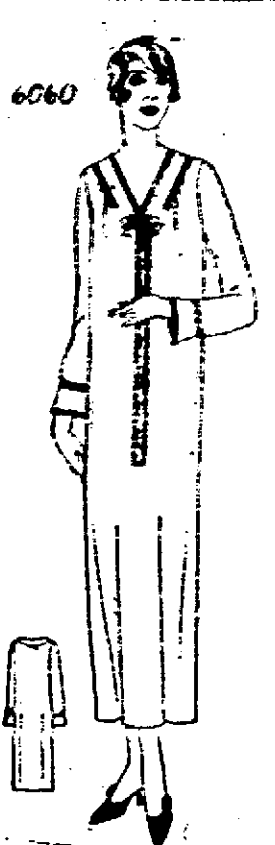

## THE RIGHT WAY TO BANISH FAT

Combat a cause which modern research has discovered. Turn food into fuel and energy, rather than into fat. Supply a natural element which your system lacks. That is the method embodied in Marmola prescription tablets.

People have used Marmola for 20 years—millions of boxes of it. They have told others the results. Now, in almost every circle, you can see the results in new beauty and new vigor. Why not learn the way to attain them?

A book in each box of Marmola tells you the formula, also the reasons for its use. You will know why it works, and why they are benefited. Get your drugist—in fairness to yourself—for a \$1 box of Marmola.

## OUR DAILY PATTERN.

A Simple Pleasing Model.

6060. Batiste, cambric, crepe, mainbock or crepe de chine are appropriate for this style.

The pattern is cut in 4 sizes: Small, 34-36; medium, 38-40; large, 42-44; extra large, 46-48 inches bust measure. A medium size will require 2½ yards of 39 inch material. To trim as illustrated will require 2½ yards of insertion and 4 yards of edging.

A pattern of this illustration mailed to any address on receipt of 12c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

## Fashion Book Notice.

Send 15c in coin or stamps to The Freeman for our up-to-date Spring and Summer 1928 Book of Fashions, showing color plates, and containing 500 designs of ladies' misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 30 of the various simple stitches), all valuable hints to the home dressmaker.

The Skjellerup comet is said to be invisible to the naked eye as well as being a strain on the naked ear.

The frequency with which filling stations are robbed is attributed to the fact that they do a cash business.

We never did find out really whether Lindbergh cares for genuine Mexican tamales canned in Kansas City.

## When Children Complain

Children are naturally happy and playful and when they complain of headache or dizziness, are cross and feverish, restless at night, have bad dreams and no "pep" for play, it is a sure sign of an upset stomach that can be quickly remedied if you give them

MOTHER GRAY'S SWEET POWDERS. They act quickly and gently on the bowels, relieve constipation, cleanse the stomach and sweeten the breath. They break up colic and act as a tonic to the whole system. Children like to take them. This safe and pleasant remedy has been used by mothers for over 30 years. Mother Gray's Sweet Powders are sold by all druggists except those in the States.

Joan Crawford and the unusual bathroom inspired by this young Metro-Goldwyn-Mayer star

"People open their hearts instantly to the appealing loveliness of exquisite skin and every star knows how essential it is to have beautiful smooth skin. No make-up can fake it in the glare of a close-up."

says Edward Sedgwick, director for METRO-GOLDWYN-MAYER

¶ Nine out of ten screen stars use Lux Toilet Soap! ¶ It cares for their skin the true French way. The great film companies have made it the "official" soap in their studio dressing rooms. ¶ Enjoy the dressing, instant lather you loved in French soaps but until now could only get at 50¢ or \$1.00 a cake—now it's just TEN CENTS!

"I have tried innumerable French soap—but never have I had anything like Lux Toilet Soap for keeping my skin fresh and smooth. 'Studio skin' is the all important asset for a star."

Joan Crawford

LUX Toilet SOAP... 10¢

"But a woman's work is never done"

324 farm housewives say:  
"This eases tired backs"

WHAT a fresh, wholesome, healthy-looking class of women the farm housewives are! They fly from one task to another with the quickness and suppleness that so many women lose with their first youth.

Yet, if you ask most of them will confess that often their backs are lame—their feet and ankles aching with fatigue.

We inquired around among farm housewives to find out what they do to relieve the aching

and stiffness in overtired muscles, and to take care of the countless small hurts that are always happening around the farm home.

324 of them said that they found Sloan's the very best remedy they can use.

## Used everywhere for muscular pain

In one out of every three homes you'll find Sloan's Liniment the standby for every kind of muscular ache, for rheumatism, for colds

and chest congestions and for all kinds of minor injuries.

Read this letter from a farm housewife telling of back relief from an injury:

"I fell out of a cherry tree. The branch I was on broke and I fell fourteen feet. I hurt my hip and I suffered agony. I used Sloan's, and I don't even feel it any more. I think Sloan's is splendid."

And this—telling of the help that Sloan's gave to a persistent case of muscular pain:

"I could not sleep or do my work, but now I sleep well, walk and do my work with ease. I used Sloan's Liniment only once and it relieved me of my pain. It is just wonderful."

Sloan works by the quickest, most effective method known for relieving pain. It stirs up the circulation—sends a healing tide of fresh, germ-destroying blood direct to the spot that hurts—gives you quick, positive relief.

Always keep a bottle of Sloan's Liniment on hand. At your drugist's you can get one that lasts long time for 35 cents. Use it for:

Rheumatism    Lame muscles  
Sciatica       Stiff neck  
Lumbago       Colds and  
Neuralgia       congestions  
Sprains and bruises

The farm housewife has learned that she can ease tired, aching muscles with Sloan's

SLOAN'S Endorsed universally by those who do the world's hard work

## \$200,000,000 New Tax Cut Limit

Washington, March 27 (AP).—The Senate today was divided up to the front today by administration forces in an attempt to convince the high cut advocates that they are waging a dangerous fight.

Despite increased tax receipts for the first quarter, treasury officials drew out the warning that congress already had gone beyond the budget estimates in its appropriations, and with other large items starting it in the face, it was not possible now to vote more than a \$200,000,000 tax reduction without creating a deficit.

This is \$25,000,000 less than the original recommendation made by President Coolidge, but \$30,000,000 less than the cut provided for in the bill passed by the House and now waiting action in the Senate finance committee.

"Under no circumstances will the new recommendations of the treasury exceed the original figure of \$225,000,000," one high official of the treasury explained. "It is not probable that it will exceed \$200,000,000 and it is possible that it will be under \$200,000,000."

President Coolidge is understood to have informed the treasury that he would veto any tax reduction measure that endangers the government's fiscal balance, and with this in mind his supporters in the Senate finance committee, which takes up the House bill April 3, are planning to lap off an appreciable slice from the pending measure.

### PLATTEKILL GRANGE HEARS FROM CONGRESSMAN PRATT

Plattekill, March 27.—The regular meeting of the Grange was largely attended on Saturday evening. As a result of the petitions formulated and signed at the last meeting and sent to Congressman H. J. Pratt protesting against the proposed plan of consolidating the mail routes out of Wallkill, N. Y., the following telegram was received: "No further action will be taken by post office department to consolidate mail routes from Wallkill." Congressman H. J. Pratt, Mr. and Mrs. Harold Tenney were received by dinner from Little Britain Grange. Mrs. Norman Tremper and J. M. Chase gave interesting explanations of the "Export Debutante Plan" and the "McNary-Haugen Bill."

The program consisted of an observance of "Olden Times" as follows:

Vocal Solo—"Silver Threads Among the Gold," Mrs. Harry Coleman accompanied by Marian Harris. Reading—"The Deacon Explains," Mrs. E. A. Radiker.

Essay—"Long, Long Ago," John Hoch. Reading—"The Back Number," Mrs. William Nabor.

Address—"The Good Old Times," H. E. Tenney. Song—"Love's Old Sweet Song," H. E. Tenney.

Recitation—"The Good Boy," Mrs. Charles Everett. Tableau—"In the Olden Days," Mr. and Mrs. George Fowler.

Then followed a series of old-fashioned square dances led by J. W. Christie to music by the Grange orchestra.

The refreshment committee served abundant supplies of sandwiches, home made cakes and coffee.

The auction sale held by Irving Baxter on Thursday was largely attended. Mr. Baxter will soon occupy rooms at Gerow's Mills.

Charles Shay has purchased a house in Waliden.

The Sunshine Circle held a roast pork supper at the Grange Hall on Tuesday evening.

E. H. Kittle of Kingston visited his parents, Mr. and Mrs. Walter Kittle on Sunday.

### REAL ESTATE TRANSFERS.

Deeds Recently Recorded with the County Clerk.

The following deeds have been filed in the office of the Ulster county clerk:

Tobias Capozzi and wife to Frank Romeo and wife, a property with tract of land in town of Plattekill. Consideration \$3,000.

Emory Otto to County of Ulster, a parcel of land in town of Gardiner. Consideration \$300.

Rosendale Developing Company, Inc. to Elva Hoag and Clarence Hoag, a parcel of land in town of Rosendale. Consideration \$1.

Elva Hoag and Clarence Hoag to Rosendale Developing Co., Inc., a tract of land in town of Rosendale. Consideration \$1.

Rosendale Developing Co., Inc. to Patrick O'Connor and wife, a parcel of land in town of Rosendale. Consideration \$1.

### Cold Responsible for

#### Error of Stevenson's?

Robert Louis Stevenson never was in sympathy with those to whom snow and ice brought joy. During a cold spell in Edinburgh he wrote: "I feel fit for little else besides prayer. I can not be comforted; my wife and I are frozen. . . . Life is an amusement totally unsuitable for winter. I place a chain to immortality on that phrase. How can you mind about Shelley? You wouldn't if you were as cold as I am."

It may have been this longing of cold which, by some psychological twist, betrayed Stevenson's wife into his worst literary blunder, the Manchester Guardian suggests. When Marcel Schwab sought permission to translate "The Master of Ballantrae," Stevenson instructed him to make a variation in the original.

"Pray do not let Mrs. Henry thrust the sword up to the hilt in the frozen ground," he wrote; "one of my incomprehensible blunders, an exaggeration to stagger Bala. Say she sought to thrust it into the ground."

### East and West to Wed

Elizabeth Williamson, bride, of Kalamazoo, Mich., is to be the bride of Yoshio Markino, upper, brilliant Japanese artist, who is now exhibiting his works in London, following a four years' visit to the United States. Markino is soon to display his paintings in Rome. (International Newsweek)

### DRIVE UNDERWAY FOR GIRL SCOUTS

(Contributed)

We talk a lot about the flappers of today—the future of young womanhood. What would you give to be assured that 100 girls in Ulster county are better next year than they are this year? Would you give a cent a girl; a dollar for the hundred? If you know the Girl Scouts Ulster County Council, Inc., you know an organization that is helping young girls along ethical, social, domestic and athletic lines to be the kind of girls we want in old Ulster.

But every organization needs financial aid and every organization needs the moral support that its contributors lend.

One cent a girl (your annual contribution)—one dollar for the first hundred—will help to make these girls healthy, wholesome, cheerful, thrifty and clean. This assertion has been proved here in the county year after year. Ask those whose business it is to observe growing girls. Ask any girl who ever belonged to the organization. Ask any mother whose daughter is a Scout. Ask the woman who owns one.

Not one penny of your money goes to a member of the committee or to those valiant captains or leaders who are devoting so much of themselves to this noble work; but money is needed to organize troops, to carry on the work through the winter, and to organize the summer camp. Do you know that Ulster county has an admirable camp for Girl Scouts on the beautiful Borden Farms at Wallkill? Do you know that the Girl Scouts Ulster County Council, Inc., has six substantial buildings there comfortably furnished and that trained leaders conduct a camp there that is a credit to the Council, and the county. Do you know that you would have a glorious afternoon there some day this summer if you should visit the camp? Isn't it worth a dollar to belong to an organization that is doing so much for the future women of Ulster?

An advertisement in the paper tells that the Council is making a county wide appeal through hundreds of letters sent out this week. If you receive a letter, please remit promptly and so doubly encourage the committee. "A dollar will do much; two dollars will double it; ten will bring you a blessing. Don't give more than ten unless you believe in the

## HOLEPROOF HOSIERY

Featuring Lucile, Paris Colors

Our New Hosiery Section featuring Lucile, Paris, created colors in Holeproof Hosiery is located in our big Main Floor Hosiery Department.

### SPRING COLOR CREATIONS BY LUCILE

The Unprecedented demand for smart French colors created by Lucile for Holeproof Silk Hosiery, causes us to open this section to take care of the numerous demands of our customers. We invite you to visit this new section, opening tomorrow.

The world famous Holeproof will be featured in a wide range of styles, colors and sizes. Sales people are equipped to serve you in every way. Here also you may obtain the latest suggestions from Lucile on color harmony in the complete ensemble.

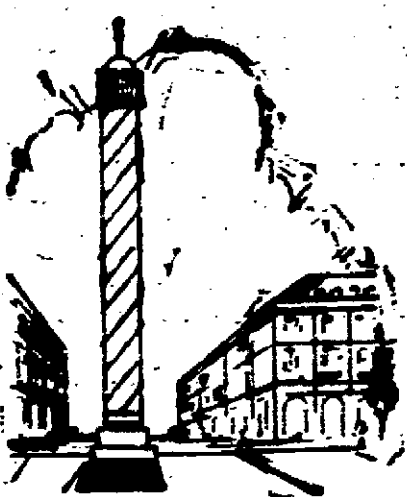

For Women Who Seek the Different, This  
Unique Style Service Will Prove Invaluable.  
Plan on Visiting This Department.

\$1.00

NO. 560—A finely knit light service stocking. Pure thread silk leg to mercerized hemmed top. Mercerized heel. Ex. toe and silk faced sole.

\$1.95

NO. 3000—Is a highly styled full fashioned medium weight service hose with an all silk leg from top to toe. An innerlining of fine yarn in the garter top and foot adds to the service. Ex. toe and toe guard for extra protection.

\$1.50

NO. 2230—A full fashioned silk hose with a long clear silk leg to hem in a service weight. Fine lisle top and sole with Ex. Toe and mercerized heel.

\$1.95

NO. 2471—An exquisitely styled sheer, transparent, full fashioned chiffon hose, silk to the last ripple in the hem top. An innerlining of soft lisle in the foot and garter top adds to the wear without sacrificing the beautiful texturing.

### Spring Color Creations By Lucile

#### Delis

The bewitching shade of gray in all its newest tone colorings, always good for street wear.

#### Moderne

As delightful as the hue of the skin after a season of sun and surf. It has a sun-beam skin tone.

#### Nectaire

A smart shade for sport and country. The same suggests the tint—honey.

#### Amourette

This delicate shade was created by Lucile for Holeproof—lovely sunburn effect.

#### Juliette

Delightfully misty maroon for smart teas and other afternoon functions.

#### Francine

A soft wood shade for spring and summer sport wear.

#### Paulette

Of national cast, warm in feeling unlike most grays, good for business or travel.

### Biggest Man in Baseball

"YES, I am big," admitted "Jumbo" Elliott, the Brooklyn pitcher, "but I am not fat." Jumbo was indignant but not angry over the remarks as to his corpulence. He weighs 230 pounds, just five less than Buckeye, the mammoth Cleveland pitcher, but then Elliott is three inches taller than Buckeye and has the latter's girth at the midsection by twice three inches. Elliott is a giant. He is big boned, has big hands and feet and deep chest and enormous shoulders. That nickname, "Jumbo," fits him to a T.

"Jumbo" Elliott.

nursed him along all season, using him in only 188 innings, or the equivalent of 30 complete games. Elliott's won and lost record was not impressive, as he accounted for only six victories and was charged with thirteen defeats, but his earned run average per game was down to 3.50, he ranking tenth among the moundsmen in this important rating. Some of the most famous and successful pitchers of the league rank below him here. And then it must be remembered that it was hard for any pitcher to win for the light hitting, loose fielding Robins last year. Even the Dazzler barely broke even, while the great Petty did not. It ought to be much easier to win this season.

If any one, blinded by his 6 won and 13 lost record of last year, wants to get a line on Elliott's real value let them try to get him away from Uncle Robbie. The Robin leader absolutely refused to talk trade on his giant left-hander, no matter what the bait offered in the way of batsmen, and heaven knows Robbie needs batters. But he figures that Elliott did not have a true test last season after being overworked on the coast the year before. The big boy with the weary wing should show his true form this season.

### INDUSTRIAL BASEBALL MEETING THURSDAY

All who are interested in an Industrial Baseball League for the season of 1928 are invited to attend a meeting which will be held in the Chamber of Commerce rooms Thursday evening, March 29, at 7:30 o'clock. It is felt that a league of this kind composed of players from the industrial plants, who play for the love of playing the game is a big asset to community recreational life. The playing of a game in an inter-company game not only gives the players something to look forward to but relieves their minds from the monotony of their every-day job. By playing together people get better acquainted and are thus better able to work together and understand each other.

Other years have proved this true in Kingston and it is the desire of those interested in the formation of the league for this season to have more teams than ever enrolled, and that many teams will be represented at this first meeting.

### ST. PETER'S BOWLERS BEAT PALEN PINMEN.

St. Peter's bowlers defeated the St. W. Palen's two out of three games in the City League at the Y. M. C. A. alleys Monday night. Heard bowled highest for Palen's with 491 points, while Murray scored highest for St. Peter's with 473 points to his credit.

Pete	108	128	128	125
Heard	193	147	151	491
Coley	121	154	177	452
Total	422	430	519	1371

Murray	181	153	159	473
Raible	181	144	121	446
Total	543	432	390	1365

### EASTERN RACE TRACK BOOKMAKER IS DEAD

New York, March 27 (AP).—Maxey Blumenthal, 62, one of the leading bookmakers on the eastern race tracks, died Friday at West Palm Beach, Fla.

Born in Chicago, he came to New York in 1890, and had since been a colorful figure at the tracks and the places where sportsmen gather.

At one time he was a part owner of the famous Bridge Whist Club of Saratoga, and in recent years was said to have made a fortune in real estate.

### Sande Comes Back

Carl Sande, premier jockey of the world, is again free to ride, following his reinstatement by the Maryland Racing Commission. That body imposed a life-time suspension on Sande last year for alleged foul riding.

(International Newsweek)

### Cooperative Stores.

Basel, March 27 (AP).—Swiss housewives buy household necessities through cooperative retail societies active in Switzerland for over 50 years. More than 80 per cent of the purchases are groceries, meat and other foodstuffs, while fuel, footwear, hardware and utensils make up the balance.

### EARLE SANDE PREPARES FOR HIS RETURN TO THE TRACK

New York, March 27 (AP).—Jockey Earle Sande, recently reinstated in good standing on the turf, is now galloping horses at Belmont Park in preparation for his return to the track. He was scheduled to report at Joseph E. Widener's stable in Kentucky but changed his plans to await the arrival of Widener's stock, due here within a few days.

Frank Colburn, who rides for William E. Cox, is getting himself ready on the Metropolitan tracks, having altered plans which would have sent him into an extensive riding campaign in Tennessee.

Hector J. Mender, Argentine coach at Baltimore, who has proven a crack boxer in amateur circles, will represent his country in the 147-pound division at the Amsterdam Olympics.

Turfmen are much interested in the arrival in the racing world of a hand-

### Bresnahan Now Coach

The photograph shows Coach Roger Bresnahan of the Giants battling 'em out during an easy workout at Hot Springs. Roger, a former Giant of a generation ago, comes back as coach for John McGraw's players this year.

some filly, stired by the world-famous Single G and who appears to have inherited many of the traits of her distinguished parent.

### JANE FAUNTZ HOLDS TWO NEW SWIMMING RECORDS

Chicago, March 27 (AP).—Struck-year-old Jane Fauntz, of the Illinois Women's Athletic Club, who many critics believe never would regain her stroke because of an injury to her right arm in an automobile accident last summer, today held two new world swimming records.

Leading the I. W. A. C. to an easy 15 to 16 triumph over the Canadian champions, the Parkdale Dolphins of Toronto, Miss Fauntz last night shattered the international records in the 100-yard and 100-meter breast stroke. Walter Laufer, Lake Shore Athletic Club, Chicago, who swam in a special event, excelled his own two-year-old national record in the 300-yard medley event.

The new and old records:

100-yard breast stroke—new record by Miss Fauntz, 1:29.3; old record by Agnes Geraghty, New York, 1:20.4.

100-meter breast stroke—new record by Miss Fauntz, 1:29.3; old record by Miss Geraghty, 1:21.

100-yard medley swim—new record by Laufer, 3:45; old record by Laufer, 3:45.2.

### CONGREGATIONALS WIN OUT IN EXTRA PERIOD

Monday night at the Jewish Community Center the Congregationals defeated the Judeans in probably the most thrilling battle ever fought on the Judean court. At the end of the game the score stood 46-46. An extra five minute period was necessary for the Congregationals to win. The final score was 59-51. "Tuffie" Maroon, of the Congregationals, was high scorer with 30 points to his credit. Cassell came next with 23. The scoring for the Judeans was about equally divided, Alcon having a total of 17, and Frier 15.

On Wednesday night the Congregationals will meet the Presbyterians of the Sunday School League. This game will determine the Congregationals' standing in the league.

### HIGH FALLS.

High Falls, March 27.—The Ladies' Guild of St. John's Church will meet at the home of Mrs. E. Christiana on Thursday afternoon, at 2:30.

There will be a lecture in St. John's Church on Thursday evening at 7:30 by the Rev. R. S. Hornby of Kingston. All those who have heard Father Hornby's lectures during Lent it is expected will surely want to hear this one.

### Britains Coach German Oarsmen

Berlin, Germany, March 27 (AP).—On the skill of three British rowing coaches, once the toast of old England's scullers, will hang whether chance Germany has of snatching Amsterdam this summer the spot of supremacy Great Britain and the United States have won when the crew classics of recent Olympics.

On the broad reaches of the Rhine Wansee and Havel, Tom Sainsbury, of New Zealand, once a world champion sculler, daily drills the crack four- and eight-oared crews of the Berlin Rowing Club, one of the most powerful members of the German Rowing Federation. On the other side of the city, where the Spree and its tributaries form the practice grounds, Ernest ("Wag") Barry, professional champion of Great Britain from 1912 to 1920 and the uncle of Bert Barry, present day titleholder, puts the members of the Hellas Rowing Club through their paces.

The only eight-oared crew in the federation that appears at the moment to have a chance of challenging Sullivan's men for the right to represent the Teutonic cause in training under the colors of the Rowing Club Brandenburg and the direction of Ernest, Harding, and member of the British triumvirate.

In all the rest of Germany, with her hundreds of rowing clubs, and Berlin itself with 80 crew squads only the Wilking Rowing Club of Berlin appears to boast other Olympic talent. Here Wessel Joesten, a German, is training three favorites, Kohlo, Engels and Dr. Voigtman, for the single scull trials. Barry conceded the outstanding double scullers in Moeller and Moeschke, who hold several German titles.

A squad of 28 men will represent Germany in Amsterdam classics. The team will be picked July 1, when the final eliminations of the rowing federation will take place at Hanover. Entries in the Olympics will consist of an eight-oared crew, four-oared boats with and without coxswains, pair, double and single sculls. Germany fears only the English and United States entries at Amsterdam, for the Swiss, Hungarian, Swedish, Danish and Dutch boats previously have been defeated in competition with the Berlin Club oarsmen.

### Sport Notes

Prexy Heydler suggests a Junior world series. Perhaps he means the Phils and Red Sox.

Memphis has purchased M. C. Cren, catcher, formerly with Cleveland, from San Francisco.

Time was when a boxer was proud of his scars; his chief interest in the game now is compounded semiannually.

If the 1,006 consecutive loops made by a Minneapolis aviator were placed end to end they would look like a Red Sox score.

Things have now reached the stage where if war is again declared, Dempsey can claim exemption because of his eyeright.

Jack Dempsey has been offered \$100,000 for a fight with Jack Gross of Philadelphia. Not enough net, let alone Gross.

Johnny Tobin, unconditionally released by the Boston American league baseball club, has signed with the Columbus American association team.

Bobby Jones and Walter Hagen, two of the greatest golfers of all time, have only a single hole-in-one apiece and each came after many years of play.

All baseball experts are unanimous in the belief that any club to finish ahead of the New York Yankees this year will win the American league pennant.

Temple university in Philadelphia, Pa., which did not start foot ball until three years ago, won seven out of its eight games against strong opponents last season.

Jim McMillan, former star athlete at the University of Illinois, is now grossing between \$25,000 and \$30,000 a year as a professional wrestler and football player.

Larry Jacobson, Cincinnati, who formerly pitched for the Cincinnati Nationals, lost the use of his right eye as the result of injuries received in an automobile accident.

The Jeff Livingston string of platters earned \$25,000 in purses during the 1927 racing season, made up of thirty-two firsts, twenty-four seconds and twenty-eight thirds.

Max Carey has constantly been in the big leagues since 1911, when he was acquired by the Pittsburgh Pirates. He had been with South Bend in the old Central league.

### Charley Rosenberg Now Fights as Featherweight

The featherweight class is picking up. Benny Bass, Bud Taylor and Charley Rosenberg and Busby Graham are facing the champion, Tony Canzoneri.

Pilating Rosenberg and Graham with a suspension lasting 12 months has had a lasting effect on those boxers who have had their own ideas about jumping the traces, and doing pretty much as they pleased. Both Rosenberg and Graham took their medicine with good grace.

Rosenberg gave up his title willingly. He couldn't make the bantamweight limit anyway, and was permitted to go through with his engage-

Charley Rosenberg.

ment with Graham. Now the pair are back as featherweights.

Rosenberg weighs 140 pounds at the present writing. Allowing five pounds for his street clothes, Charley has nine pounds to sweat off before he can scale the beam as a featherweight.

No one can deny that the former bantamweight champion looked like a sweet fighter at 124 pounds. But will he be able to come back after a long lay-off and show the stuff he had? Inaction shows on a little fellow quicker than it does on a heavy-weight. Very few have been able to stay away any length of time without impairing their fighting qualities.

### Wants a Try-Out

Comes now Pat Crawford, the reticent infield prospect who previously had stated he did not care to report to the Giants for a trial. He denies that his aversion to Sunday ball is responsible for his attitude, but says that a contract he holds as college coach must be fulfilled. The player wants to report to McGraw, and have himself looked over for a week. Then if he appears to have the makings of a big leaguer, he will finish out his contract and rejoin the Giants after May 15.

### Alcohol for Fuel

Queensland, March 27 (AP).—Australian motorists watch with interest the competition between power alcohol and gasoline as motor fuel. A plant established here expects to produce 30,000 gallons of power alcohol weekly, using as raw material molasses from nearby sugar mills.

# What it takes to make a man pipe-happy, P.A. has!

TAKE a piece of paper and write down all the things you like in a smoke. Then buy a tidy red tin of P.A. and check the tobacco against your list. Open the package and release that tantalizing P.A. fragrance. Load up and light up. One thrill now follows another. You're ready to believe all the fine things you've heard about P.A.

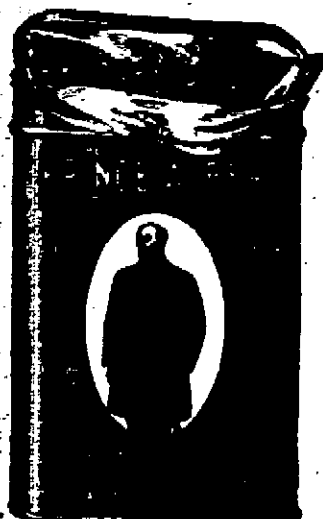

Cool as a jury-foreman, rising to speak. Sweet as his words: "Not guilty." Mild as your interest in a civil suit. Mild and mellow, but with that rich, satisfying tobacco-body that only the world's most popular brand can

offer. You can't seem to get enough of tobacco like this!

The proof of the puffing is in a pipe packed with P.A. Go get some now and see what a real companion your pipe can be when you put it on the right ration. Just around the corner is a store where they hand out pipe-joy in tidy red tins. Your cue-to-contentment is to get around there now.

# PRINCE ALBERT

—the national joy smoke!

TWO full ounces of genuine smoke-joy in every tidy red tin.

THE EXCELSIOR ROSE  
WILL HOLD A CARD PARTY  
Every Wednesday Evening  
at the Company's Rooms on  
RUSLEY AVENUE.

## Cantilever The Smart Shoe For Comfort

"CASTLE"

Tan Kid...\$12.00  
Black Kid...\$11.00  
Pat. Col...\$11.50

A variation of the utility oxford. The closed front serves to prevent the foot from slipping forward in the shoe, thus adding to the comfort and facilitating the corrective action of the flexible Cantilever arch. Cut-outs lighten the effect and give style to this practical shoe.

Every Cantilever Shoe is made with a flexible shank, so that the important foot muscles can gain strength through exercise, thus correcting or preventing weak arches and kindred ills. By keeping the foot well balanced and permitting it to function naturally, Cantilever Shoes enable you to go gaily through a busy day.

These new models fit perfectly at the heel; they hug the ankle; they fit the arch; and they provide room for the toes.

They give you a beautiful fit—and a beautiful foot.

Come and see them.

### E. T. STELLE & SON

34 John Street.

## News of the Day In Wall Street

New York, March 27 (AP).—The world's production of steel in February is calculated at 124,525 short tons by the American Bureau of Metal Statistics against 121,562 tons in January. Output for the first two months of 1928 was 256,117 tons.

Contracts let on new buildings and engineering the past week in 27 states east of the Rocky Mountains amounted to \$139,778,960, an increase of more than \$5,000,000 over the preceding week, F. W. Dodge Corporation reports. The daily average of contracts from January 1 through to March 23, amounting to \$19,226,509, gained nearly \$600,000 over the daily average for the first three months last year.

February net operating income of the Baltimore and Ohio dropped to \$1,444,608 from \$2,191,497 in February last year and for the two months this year to \$3,351,192 from \$5,073,302 a year ago. The Atchafalaya, Toledo and Santa Fe also reported smaller net operating income, \$2,685,928 against \$3,970,826 and for the two months \$5,269,456 against \$8,508,456 in the same period last year.

The Canadian department of the Interior has issued a booklet on insulating houses, which says that insulation will deaden noises from the kitchen. The kitchen is itself a domestic department of the interior, so the book should on this question be an authority. But what, after all, is more appetizing than the sizzle of frying chops? Perhaps the noise which the insulation is intended to deaden is the housewife's comment when she burns the potatoes.

## Denies Vehemently

Will Hayes, star of the movies, is on his way abroad for a few months' rest. Before sailing from New York he denied that there was any connection between himself, Harry Sinclair and the Continental Trading Company which is being investigated in reference to the Teapot Dome Oil bonds.

## SAMSONVILLE.

Samsonville, March 27.—F. N. Davis and son, Stanley, left for Mohawk Lake on Monday, where they are employed as carpenter work.

W. G. Moore is spending some time in New York city.

Mrs. Ella Krum is helping her mother with her spring cleaning.

The roads in this vicinity are in bad condition. Several cars were stuck in the mud in the road between the town of Olive line, and what is known as the Red Brook.

F. Barringer spent the week with her parents, Mr. and Mrs. I. Barringer.

F. N. Davis and son did some carpenter work for E. M. Davis last week.

Jesse Shurter was a business caller in Kingston Saturday afternoon and night.

D. C. Van Etten called on friends in Stony Hollow and Kingston on Saturday.

## These Chinese

Darned clever, these Chinese! The waiting world has just learned that more than 4,000 tons of broken glass are imported annually into China, with about 75 per cent of the supply coming from the United States, observes the Detroit Free Press. It is said that glass factories, of which there are twenty or more in Hongkong and Canton, reclaim the broken glass and manufacture from it bottles, lamp chimneys, lamp shades, plates, dishes, beads and other glass articles. Broken white bottle glass is preferred in the coast glass factories, though those in the interior ask for the scraps of green bottle glass. In Canton alone more than 160 tons a month are bought from the importers, not to mention the broken glass sold by hawkers. All of which only goes to prove that salvage is a strange and wonderful business, wherein almost everything that we toss gaily away, with the thought that surely it is worthless, can become raw material to some one else. In this matter of broken glass scraps, perhaps the trickiest you will buy in an "oriental store" next year will be ornamented with beads made from the glass tumbler you broke three or four years ago. Something to think about, anyway.

## Lenten Services in German.

Tomorrow night at eight o'clock there will be German Lenten services in the Spring Street Lutheran Church. This will be the last Wednesday night Lenten service of the season. The sermon theme will be "Peter's Repentance." The German speaking public is invited.

## TOOK POSSESSION OF HOUSE.

—HOLD FOR GRAND JURY.

Edward W. La Vally, claiming to hail from California, and Albert Hogg, giving Watertown as his home town, are in Ulster county jail awaiting action of the grand jury on a charge of burglary in the third degree. The men were committed by Judge Harold A. Leat of Highland on Monday following their arrest by Sergeant Lockhart of the State Troopers. It is alleged the pair took possession of the summer residence of Fred Kullman at Highland. Mr. Kullman having gone to his home in Brooklyn for the winter. By removing a glass in a door at the rear of the house, entrance was gained. La Vally and Hogg made themselves at home for a few days until arrested. They had arranged a bed upon which they had slept and a loaded shot gun was found in the bed. A neighbor noticing smoke coming out the chimney, and knowing the Kullman family were not at home notified Sergeant Lockhart, who on going to the house found the pair enjoying a chicken dinner. They were taken before Judge Leat who committed them to jail.

## MARLETON ROADS

ARE VERY BAD

High Falls, March 25.

Editor of the Kingston Freeman:

We noticed some time ago that Mr. Loughran, the county superintendent of roads, said that the number of cars seen in the parking grounds and on the streets of Kingston was an indication that trade was not suffering from the poor condition of country roads.

I agree with "A Citizen" from Allgerville that if Mr. Loughran would visit the country roads he would wonder how any one could get to Kingston.

I think that Mr. Loughran should get out of his easy chair and make a tour of the Ulster county dirt roads, let him come out to High Falls and go over the R. F. D. going back via the Clove on the High Falls-Mohawk road, and he sure will see a sample of Ulster county roads. And I know that the roads do hurt Kingston's trade, as a lot of people now buying of mail order houses would buy in Kingston if the roads were better.

A TAXPAYER.

## Soapsuds and Plants

Are soapsuds beneficial to plants? The United States bureau of plant industry says they probably are, especially when the soapy water is put on during rather dry weather. But it is believed that the mere presence of the soap has little effect on plants one way or the other. There probably is no real stimulative effect from that source. It is the excessive watering of the ground that causes the plants to grow faster. There is no doubt, however, that soapy water is a good dressing for the soil.—Pathfinder Magazine.

## Inattentive

Suddenly a cloud seemed to overcast the bride's features and with an anxious note in his voice the groom asked what was wrong. "What is it?" he cried, "tremendously perturbed. 'Why are you sobbing like that?'" "Be-be because you are growing cold towards me. You don't love me any more!" "Oh, my dear," he wailed, "how could you say that?" "Well," she said, "I saw you look out of the window twice."

## Date-Growing Experiments

Early in the present century two experimental date orchards were established in the Conchella valley, California; one at Mexca, in 1904, by the bureau of plant industry of the United States Department of Agriculture in co-operation with the horticultural department of the University of California, and the other at Indio, in 1907, by the bureau of plant industry. A large number of the best date varieties of the Old world have been tested in these gardens.

## ELLENVILLE

Ellenville, March 27.—Miss Evelyn Martin, a member in the Pine Grove school, spent the week end at the home of her parents in Morris-town, N. J.

William R. Rose, a senior at Harvard University, spent the week end with his parents, Mr. and Mrs. William C. Rose, of North Main street.

Miss Mary Conn, accompanied by Miss Ada C. Holmes, motored to Lakewood, Conn., last Friday and spent the week end with friends in that village.

Miss Katharine T. Terwilliger, a student at Wellesley College, is expected at the home of her parents, Mr. and Mrs. Bert H. Terwilliger, this week to spend her spring vacation.

Sidney D. Delaney of Monticello spent the week end with his mother, Mrs. Jessie Delaney, of Cape Avenue. Frank Douglas spent the week end with Mrs. Douglas at Tuckahoe, N. Y.

Jack Evans of Albany spent the week end with his parents, Mr. and Mrs. Frank Evans, of the Mountain Road.

A good attendance made the evening of dances on Friday under the auspices of the Mountain Club successful. Prizes were awarded as follows: Bridge, Daisy W. Johnson, Francis D. Andrews, Mrs. William Fuller and Miss Helen Bengel, pianists, contestants, Mrs. Elizabeth Schaefer.

Miss Jennie Mitchell, who was recently operated on for appendicitis at the local hospital, has returned to her home at Canal street, and is recovering rapidly.

Mr. and Mrs. James Davis of Accord, N. Y., spent Sunday with Mrs. Davis' parents, Mr. and Mrs. A. Sheffman, on North Main street.

Mr. and Mrs. Milton Santee returned to their home in Circleville on Wednesday last, after spending the winter with their daughter, Mrs. Allen D. Potter, and family.

Mr. and Mrs. Eugene Slater visited friends in Grahamsville last week. Mr. and Mrs. Otto Johnson, Jr., of Richmond Hill, L. I., accompanied by H. J. Arnold, of Ozone Park, and Miss Helen Johnson, who is in training at Carson Peck Memorial Hospital, Brooklyn, motored up on Saturday and spent the week end at the home of Mr. and Mrs. Otto Johnson, of Bloomer street, Mrs. Arnold, who has been spending two weeks at the home of her parents here, returned to the city with the party.

George C. Rose, of Mineola, L. I., spent the week end at the home of his parents, Mr. and Mrs. W. C. Rose, of this village.

Miss Barbara Kell, of Monticello, N. Y., spent the week end at the home of her parents, Mr. and Mrs. Joseph Kell, in this village.

William Hoffberger of New York city spent the week end in this village visiting his sister, Mrs. Henry Ahrens, who is ill at The Veterans' Memorial Hospital here.

Miss Harriet Cox of Norwalk, Conn., is spending her spring vacation with her parents, Mr. and Mrs. Raymond C. Cox.

Irving Ostrander spent a few days last week in New York city. Mr. and Mrs. Ellery Countryman of Poughkeepsie have been visiting Mrs. Countryman's parents, Mr. and Samuel F. Jollie, of North Main street.

John H. Divine has been spending a few days in New York city. Miss Alida Densmore of the local school spent the week end in New York.

Mrs. Edward Glenon of Tuthill avenue, who has been spending some time in Brooklyn visiting her sister and son, has returned home. Ben Miller who has been spending several days in New York city has returned to his home.

Miss Jennie Mitchell, who underwent an operation for appendicitis at the Veterans' Memorial Hospital, returned to her home on Sunday. Irving Ostrander spent Monday in New York city.

Mrs. Bruce Babcock is visiting with friends and relatives in New York, Massachusetts and Maine. Robert Shurtler, a student at Amherst, is home for a vacation.

Miss Ruth E. Rider spent the week end at her home in Oneonta. Mrs. William L. Douglas attended the flower show being held at Madison Square Garden.

Mrs. James Mansfield and daughter, Daisy, spent last week in New York city. Mr. and Mrs. Earl Hasbrouck entertained Mr. and Mrs. Charles Zimmerman of Newburgh over the week end.

Mrs. Fannie Seiken is spending a few days in New York city. Miss Louise Distel is spending a two weeks' vacation at Briarcliff.

**PRUDENCE PENNY TO LECTURE IN ROSENDALE.**  
Prudence Penny, well known writer and lecturer on the uses of electricity in the home, will deliver what should prove to be an interesting talk to women of Rosendale at the first electric cooking school to be held in the Bijou Theatre, Rosendale, March 29, at 2:30 o'clock, under the auspices of the Central Hudson Gas and Electric Corporation and Westinghouse Electric and Manufacturing Company.

Miss Penny, in addition to having years of practical experience from which to weave an interesting story, has at her command endless information regarding the latest developments of electrical apparatus for the home. For years she has been intimately associated with this phase of the electrical industry and she has succeeded in building a reputation as a national authority on home making and home management.

Miss Penny's talk will include helpful tips on the complete electrical appliance line. Worthwhile suggestions on how to obtain the best results from both an economic and a food preparation standpoint will be the backbone of her message.

**Flavor Zone Demonstration.**  
On March 30 and 31, Mrs. Bertha P. Howe, Home Economist of the Westinghouse Electric and Manufacturing Company, will give a combined lecture and demonstration on Flavor Zone Cooking. The demonstration will take place on a Westinghouse Electric Range, known widely as "the range with the clock" that actually turns itself off at a designated hour and turns itself off at a predetermined time.

This new range has completely revolutionized cooking. It enables housewives to prepare complete meals, leave and attend to other duties and find the meal completely cooked and piping hot when they return.

**NORTHEASTERN NEW YORK WHOLESALE GROCER DIES.**  
Glens Falls, N. Y., March 27 (P).—John P. Liddle, 56, widely known Northeastern New York wholesale grocer, died today at his home here. For many years, Mr. Liddle was upstate salesman for Lewis DeGroot and Son, wholesale grocers of New York, and later formed the John P. Liddle Company, Inc., of Glens Falls, of which he was president. He owned a summer hotel at Lake Comausy, which was destroyed several years ago by fire.

## TRAVEL AROUND CONTINENT OF AUSTRALIA

The photograph shows the motor car in which Pastor Deen and his wife traveled around the entire continent of Australia, a distance of 11,310 miles, in four and one-half months. In some of the wild parts of the country they were attacked by savages, but succeeded in finishing the journey safely.

## BULLETIN GIVES HINTS ON TIRES

Should Be of Help in the Constant Effort to Extend Their Life.

The mechanical first-aid department of the Chicago Motor club has issued a bulletin on tire care which should be of help in the constant effort being made to extend the life of tires. Some of the causes of damage are given as:

Motorists should examine their automobile tires to see that they are not the cause of loss of service from tires. Their true condition should be verified so that the tire may run without "wobbling." Bent flanges should be straightened and rust should be removed, as these conditions tend to chafe the side of the tire.

**Side Wall Wear.**  
Brushing the curb when turning a corner or parking, or driving carelessly over frozen, rutty roads, tends to wear the rubber off the side wall, leaving the fabric foundation exposed. Water and dirt can enter the fabric and the tire soon is destroyed. Side wall injuries should be repaired, without delay, by an experienced vulcanizer.

Tubes are frequently damaged by pinching when they are being applied. A little care will avert this danger. The flap should be smoothly and carefully applied in straight-side tires. A wrinkle will cut the tube and cause a slow leak. Both the lock nut on the valve stem and the valve cap should be screwed down tightly.

**Stone Bruises.**  
Probably breaks or cracks in the fabric body—commonly called "stone bruises"—more than any other cause, make it necessary to scrap tires before they have given full service. A "stone bruise" usually is the result of the fabric inside of the tire being forced sharply down against the steel rim. Most accidents of this type can be traced to insufficient inflation of tires, or to striking some projection in the road while traveling at high speed. Striking the curb when turning a corner or turning around in the street also is responsible for many "stone bruises." The tire can usually be saved if such injuries are repaired promptly by a good vulcanizer.

**Motorists Pay Much for Gas Tax in Six Months.**  
A total of \$101,250,841 was collected in gasoline taxes from the motorists of the United States during the first six months of 1927, according to figures compiled by the American Motorists' association in conjunction with the United States bureau of public roads.

This was the tax collected on the sale of 3,971,423,311 gallons of gasoline, or an average tax of \$4.00 per motorist, for the six months' period. Based on a per motorist basis, the figures show that each automobile in the country, the first six months, used an average of 130 gallons of gasoline, the average gasoline tax for the entire country being 2.55 cents per gallon.

**Motorists Paying Little for Our Improved Roads.**  
Automobile registration fees and gas taxes total less than 5 per cent of the annual motoring bill, according to C. M. Babcock, president of the American Road Builders' association. Mr. Babcock estimates that of the total road bill, including state aid, county and town levies, about 10 per cent is spent for motor transport. He points out that taxes are a small part of the cost of operating a car and motorists may cut their expense by driving less or using a smaller car, or by putting more money into better roads.

**Hogged the Roads.**  
Experience is not everything in safety on the highways. An observer recently was riding with a motorist who has been driving since 1907 and who spent a number of years instructing. This is what he found:

Sixty-eight miles an hour is not too much speed for him.  
He never lets anything pass him on the highways.  
He always starts in second gear.

**Business Certificate.**  
Morris Miller of 243 Broadway has certified to the Ulster county clerk that he is conducting a business in Kingston under the assumed name and style, Kingston Sanitary Bakery.

## Floating Siphon Insures Tourist Clean Gasoline

Many tourists, particularly those of the motor-camper class, use a rubber-tube siphon to fill the tanks of their camp stoves or gasoline lanterns. Clean gasoline is essential to the proper operation of any gasoline-heating unit. Dirty gasoline containing water is often caused by the end of the

Cork on End of Siphon Prevents Getting Sediment and Water Out of Auto Gas Tank.

siphon tube extending down to the very bottom of the gas tank of the car, which permits it to suck up some of the sediment and water accumulated there. This trouble is avoided by attaching a large cork, which can just be slipped through the filler hole of the tank, to the siphon tube, about an inch or so from the end. The tourist is then always assured of getting clean gasoline. —Popular Mechanics Magazine.

**Vehicles Registered in 1927 Totalled 20,991,333**  
A total of 20,991,333 motor vehicles were registered in the United States in the first six months of 1927, according to data collected by the bureau of public roads of the United States Department of Agriculture from the various state registration agencies. This represents an increase of 1,374,578 or 7 per cent over the registration during the same period of 1926.

The states showing the largest percentage increases are Tennessee, South Carolina, North Carolina, Illinois, West Virginia, New Jersey and Massachusetts. It is worth noting that 1926 statistics showed all of these states to be above the average of 5.4 persons per motor vehicle for the entire United States.

Revenue from registrations, licenses, etc., amounted to \$272,119,384, of which \$12,452,639 has been allocated for collection and administration purposes, \$188,525,679 for state highways, \$47,037,641 for local roads, \$21,785,330 for road bonds and \$1,408,925 for miscellaneous purposes. In recent years the motor vehicle and gasoline tax revenues have constituted quite a substantial portion of highway expenditures.

**Maryland Chooses Tag Colors for Two Years.**  
Maryland auto tags will be white with blue numerals for 1929, according to Automobile Commissioner Baughman. In 1930 they will be green with white numerals.

An advance decision was made concerning the tags, according to Mr. Baughman, to prevent other nearby states from selecting similar colors, as has happened in the past.

Warning that Maryland has selected the colors is contained in Mr. Baughman's New Year greeting to the commissioners of motor vehicles in other Eastern states.

**AUTOMOBILE NOTES**  
Switzerland has one automobile for every seventy-five persons.

Driving with a dirty windshield is similar to that of driving on a foggy night.

Cleaning greasy matter from brake linings can best be done by removing the band or shoe and brushing it in gasoline.

Misses one arm and both legs, Andy Crumshaw of Alliance, Ohio, has a racing car built especially so he can control it, and has won recognition as a racing driver.

**High Falls P. T. A. Meeting.**  
The regular meeting of the High Falls P. T. A. for April will be held Thursday evening, April 19, at the school house at 7:30. A full attendance is desired as a most interesting evening has been planned.

PIERCE  
ARROW

Recently, a number of people were asked the price of a Pierce-Arrow. Forty-two per cent said, "Over \$5000." Perhaps this same false notion is depriving you of Pierce-Arrow ownership—a much-coveted joy that is really within easy reach.

FROM \$2900 AT BUFFALO

You may purchase a Pierce-Arrow out of income, if you prefer. A simplified financing plan makes this a most practical procedure. Your present car accepted as cash up to the full amount of its appraisal valuation.
